Patient Participant SP exercises are an important methodology for teaching and assessment in health professions education across disciplines and the continuum of training. The first edition of Objective Structured Clinical Examinations offered a systematic approach for educators to get involved in the process of creating OSCEs and similar SP exercises. The second edition uses the same successful format to make the OSCE process easy and reproducible and adds novel material and innovative best practices for OSCEs in every context. The first edition of this book was based on the editors' 20 years of experience producing OSCEs without a clinical skills center in empty classrooms or walk-in clinics on weekends working with well-trained SPs and using carefully designed clinical scenarios. In the 10 years since they have engaged in multidisciplinary and inter-professional collaborations and expanded their approach to designing and implementing successful performance-based assessment both inside and outside of high-tech simulation centers. The original chapters 1 Introduction, 2 10-step approach, 3 Remediation, and 4 Unannounced Standardized Patients have been updated and charts, tables, and best practices throughout these chapters are elaborated and expanded on. This second edition also features an updated Foreword by Ronald Harden and Preface by Mack Lipkin, Adina Kalet, and Sandy Zabar, along with eight new chapters in collaboration with other educators and researchers covering topics such as analyzing OSCE notes for clinical reasoning, OSCE data reporting and visualization, scholarship, and a research registry, examples of performance-based assessment in practice, virtual OSCEs, and telemedicine skills, OSCEs for transitions, OSCEs for teaching and SP programs. This expanded edition will be useful to both novice and advanced educators and offers an important contribution to the health professions education literature.

The Effect of Information Technology on Business and Marketing Intelligence Systems Muhammad Alshurideh, Barween Hikmat Al Kurdi, Ra'ed Masa'deh, Haitham M. Alzoubi, Said Salloum, 2023-03-12. Business shapes have been changed these days. Change is the main dominant factor that changes the way of business operations running. Topics such as innovation, entrepreneurship, leadership, blockchain, mobile business, social media, e-learning, machine learning, and artificial intelligence become essential to be considered by each institution within the technology era. This book tries to give additional views on how technologies influence business and marketing operations for insuring successful institutions' survival. The world needs to develop management and intelligent business scenario plans that suite a variety of crisis appears these days. Also, business and marketing intelligence should meet government priorities in individual countries and minimise the risk of business disruptions. Business intelligence, the strategies and technology companies that use it to collect, interpret, and benefit from data, play a key role in informing company strategies, functions, and efficiency. However, being essential to the success, many companies are not taking advantage of tools that can improve their business intelligence efforts. Information technology becomes a core stone in business. For example, the combination of machine learning and business intelligence can have a far-reaching impact on the insights the company gets from its available data to improve productivity, quality, customer service, and more. This book is important because it introduces a large number of chapters that discussed the implications of different

Information technology applications in business This book contains a set of volumes which are 1 Social Marketing and Social Media Applications 2 Social Marketing and Social Media Applications 3 Business and Data Analytics 4 Corporate governance and performance 5 Innovation Entrepreneurship and leadership 6 Knowledge management 7 Machine learning IOT BIG DATA Block Chain and AI 8 Marketing Mix Services and Branding *Handbook of Research on Updating and Innovating Health Professions Education: Post-Pandemic Perspectives* Ford, Channing R., Garza, Kimberly B., 2021-10-08 The outbreak of the Coronavirus in early 2020 resulted in unprecedented changes to health professions education The pervasive stay at home orders resulted in faculty who were trained for preparing the next generation of health professionals in a traditional learning environment throwing out their lesson plans and starting anew New approaches to teaching and learning were created quickly and without the typical extensive planning which introduced several challenges However lessons learned from these approaches have also resulted in increased technology adoption innovative assessment strategies and increased creativity in the learning environment The Handbook of Research on Updating and Innovating Health Professions Education Post Pandemic Perspectives explores the various teaching and learning strategies utilized during the pandemic and the innovative approaches implemented to evaluate student learning outcomes and best practices in non traditional academic situations and environments The chapters focus specifically on lessons learned and best practices in health professions education and the innovative and exciting changes that occurred particularly with the adoption and implementation of technology It provides resources and strategies that can be implemented into the current educational environments and into the future This book is ideal for inservice and preservice teachers administrators teacher educators practitioners medical trainers medical professionals researchers academicians and students interested in curriculum course design development of policies and procedures within academic programs and the identification of best practices in health professions education
