Ball, 2004 **Theatre, Performance and Change** Stephani Etheridge Woodson, Tamara Underiner, 2017-12-01 This book works to make change strange from and for the field of theatre and performance studies Growing from the idea that change is an under interrogated category that over determines theatre and performance as an artistic social educational and material practice the scholars and practitioners gathered here including specialists in theatre history and literature educational theatre youth arts arts policy socially invested theatre and activist performance take up the question of change in thirty five short essays For anyone who has wondered about the relationships between theatre performance and change itself this book is an essential conversation starter **Polarization and Deep Contestations** Tanja A. Börzel, Thomas Risse, Stephanie B. Anderson, Jean A. Garrison, 2024-10-29 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations This book explores the deep contestations of the liberal script in the contemporary United States from a variety of perspectives US democracy today is in crisis because of a profound ideological and affective polarization The chapters in this volume show that Donald Trump's grip on the Republican Party is a symptom and a catalyst but not the cause of the contemporary contestations of the liberal script in the US To discern their major drivers from a longue dur e perspective each chapter takes a step back and asks three main questions 1 How can we best describe the current contestations of the liberal script in the US exploring the extent to which the US is unique in comparison to other liberal democracies facing similar contestations 2 What are the main drivers and root causes that explain the current contestations and the crisis of American democracy they may precipitate 3 What are the likely consequences for the future of American democracy The conclusions do not lead us to expect a return to the norm of internal contestations of the liberal script that are common in liberal democracies and have characterized the US throughout its history Political economic and cultural polarization is by now deeply entrenched in American society and is eroding mutual toleration as the basis of American democracy In other words the resilience of US liberal democracy is at stake It is unlikely that we will see the US liberal script bounce back in the near future This volume has emerged from research carried out as part of the Cluster of Excellence Contestations of the Liberal Script SCRIPTS which analyzes the contemporary controversies about liberal ideas institutions and practices on the national and international level from a historical global and comparative perspective It connects academic expertise in the social sciences and area studies and collaborates with research institutions in all world regions Operating since 2019 and funded by the German Research Foundation DFG SCRIPTS unites eight major Berlin based research institutions Freie Universit t Berlin the Humboldt Universit t zu Berlin the Berlin Social Science Center WZB the Hertie School the German Institute for Economic Research DIW the Berlin branch of the German Institute of Global and Area Studies GIGA the Centre for East European and International Studies ZOiS and the Leibniz Zentrum Moderner Orient ZMO *Cognition, Emotion and Consciousness in Modernist Storyworlds* Margrét Gunnarsdóttir
