The European "General Data Protection Regulation" and the consumer's utility. Impact and consequences Indra Spiecker gen. Döhm, 2021-05-04 Seminar paper from the year 2018 in the subject Law Data protection grade 2.0 University of Hohenheim language English abstract This paper aims to conduct a critical literature review on the main research question Does the European General Data Protection Regulation increase consumer's utility by increasing privacy protection The paper is structured as follows in chapter 2.1 a systematic framework of the notion of privacy and privacy protection will be described Afterwards the paper will study which kind of personal data is collected data collection technologies such as user log in information cookies or IP address and the usage process of personal data Then in chapter 2.3 the command and control policy is considered a consumer policy instrument to determine how the consumer can benefit from the command and control policy and how the government can set limitations about the level of privacy protection and consumer's welfare The last chapter 2.4 presents the significant articles of the law European General Data Protection Regulation EU GDPR for privacy protection and the consequences for non compliance with the EU GDPR In the main part the research tries to answer the following questions split in chapters 3.1 and 3.2 How can we reduce privacy concerns Can a privacy protection law like the EU GDPR lower privacy concerns and protect the welfare of the consumer This paper sets out the main arguments for introducing consumers privacy concerns privacy paradox and consumer's utility regarding consumer welfare to answer the questions as mentioned above Finally the paper will summarise the findings and a concluding solution to the research question Edward Snowden's disclosures regarding the surveillance practices of the National Security Agency NSA and the Facebook Cambridge Analytica affair in which data from up to 87 million Facebook users were illegally collected These both cases were the largest personal data scandal in the past years The violations of privacy protection create enormous concerns not only for the affected firms but also for their customers Depending on the firm the stolen data can range from relatively harmless information to extremely personal data Besides that a breach of privacy rights will cost a lot of money to remediate and do serious harm to a

firm's credibility and reputation. These examples have sent alarming signals to governments, firms, consumer policy, and consumers to address the problem of personal processing data and privacy protection. *The Latest EU Data Privacy Regulations* Uarda Milla, 2023-10-18 Seminar paper from the year 2023 in the subject Politics Topic European Union grade 1.0 University of Dusseldorf Heinrich Heine language English abstract The digital age has revolutionized our lives offering convenient access to information and services. However, this convenience comes at the cost of data privacy. With a vast majority of the EU population using the internet in 2021, personal data exchange is rampant. Surprisingly, despite privacy being a human right, only 39% of internet users read data protection policies before sharing their personal information. To safeguard personal identities, the General Data Protection Regulation (GDPR) was introduced. While it empowers consumers, it also impacts businesses, especially in terms of competition. This literature analysis delves into the GDPR's effects on companies. The GDPR sets essential principles making it applicable to all firms processing EU citizens' data. Compliance involves various measures contingent on data processing volume and method. The GDPR grants consumers rights including being informed, access, being forgotten, objection, and data portability. These rights offer benefits to companies, fostering trust and enhancing their competitive edge. Companies complying with GDPR have gained more customers and partners, bolstering their market position. Nevertheless, many companies view GDPR negatively, fearing legal uncertainties and curtailment of business activities, particularly affecting innovative digital firms. GDPR may weaken the competitive position compared to non-GDPR competitors as it increases costs and causes the loss of some collaboration partners. In conclusion, this analysis demonstrates that the GDPR has had an adverse effect on companies, particularly concerning their competitive position. It suggests implementing the GDPR as a uniform standard framework to ensure fair competition among companies, addressing the law's uneven impact. This work contributes to the understanding of the GDPR's impact on businesses, highlighting the need for more research in this area, which currently tends to be consumer-centric. *Transnational Data Protection* Jan Alexander Linxweiler, 2021-03-03 Master's Thesis from the year 2017 in the subject Law European and International Law Intellectual Properties grade 1.0 Steinbeis University Berlin SIBE language English abstract The Thesis focuses on the legal perspective of Transnational Data Protection. Here, the scope of the thesis is limited to the provisions and interdependencies of the European Union (EU) Matters of national legislation of EU Member States are implicitly mentioned or characterized but not within the scope of the thesis. Within the current business as well as administrative environment, the topic of data protection is a crucial factor for business, public reception, and security. The Snowden incident, the Safe Harbor Ruling of the European Court of Justice, and ultimately the introduction of the new European General Data Protection Regulation in May 2018, poses potential threat scenarios for businesses and require responsive actions on the respective management level. While the importance of data protection is now omnipresent and a commonly known issue, it is still a rather neglected topic. It often bears the stigma of nuisance and implies costly implementation of measures and processes. Nonetheless,

corporations companies businesses and governmental agencies have to adhere to data protection regulations the demands of the digitalization and social pressure Therefore the abidance by Data Protection Law has incrementally gained a more essential role within company s and administration s structures during the last years This is especially true for transnational contexts Here Data Protection Management encompasses privacy compliance and organizational privacy management as part of the information security risk management Essentially the objective and responsibility of Data Protection Management in the context of transnational data flows in the EU are based in its the legal framework Within the current business environment the topic of data protection is a crucial factor for business public reception and security Businesses and governmental agencies have to adhere to data protection regulations Therefore the abidance by Data Protection Law has gained a more essential role within company s and administration s structures This is especially true for transnational contexts Data Protection encompasses privacy compliance and management as part of the information security risk management

What Marketers Must Know about GDPR Michael Carney, 2018-03-19 If you market to the UK and the European Union or have clients anywhere in Great Britain or Europe no matter where your own business is based you absolutely must get yourself up to speed with the new GDPR General Data Protection Regulation which comes into effect on May 25 2018 If you don t you are potentially liable for fines of up to e20 million or 4% of your global turnover What is GDPR Let s cut to the chase What exactly is GDPR and why should marketers care Steven MacDonald gives us a helpful explanation The General Data Protection Regulation GDPR is a new digital privacy regulation being introduced on the 25th May 2018 It standardizes a wide range of different privacy legislations across the EU into one central set of regulations that will protect users in all member states Put simply this means companies will now be required to build in privacy settings into their digital products and websites and have them switched on by default Companies also need to regularly conduct privacy impact assessments strengthen the way they seek permission to use the data document the ways they use personal data and improve the way they communicate data breaches And because it s a regulation and not a directive it is legally binding meaning it cannot be opted out of or ignored In fact failing to comply could lead to fines of up to e20 million or 4% of your global turnover What Marketers Must Know About GDPR is an essential guide to the European Union s new General Data Protection Regulation It s been written and compiled by highly experienced marketer MICHAEL CARNEY

Guide to the GDPR Maciej Gawronski, 2019-07-17 To execute and guarantee the right to privacy and data protection within the European Union EU the EU found it necessary to establish a stable consistent framework for personal data protection and to enforce it in a decisive manner This book the most comprehensive guide available to the General Data Protection Regulation GDPR is the first English edition updated and expanded of a bestselling book published in Poland in 2018 by a renowned technology lawyer expert to the European Commission on cloud computing and to the Article 29 Working Party now the European Data Protection Board on data transfers who in fact contributed ideas to the GDPR The implications of major innovations of the

new system including the obligation of businesses to consult the GDPR first rather than relevant Member State legislation and the extension of the GDPR to companies located outside of the European Economic Area are fully analysed for the benefit of lawyers and companies worldwide. Among the specific issues and topics covered are the following: insight into the tricky nature of the GDPR rules relating to free movement of personal data; legal remedies; liability; administrative sanctions; how to prove compliance with GDPR; direct liability of subcontractors; sub-processors; managing incidents and reporting data breaches; information on when and under what conditions the GDPR rules may apply to non-EU parties; backups and encryption; how to assess risk and adjust security accordingly; and document the process. Guidelines of the European Data Protection Board and the GDPR's digest for obligated parties in a form of a draft data protection policy. The Guide often breaks down GDPR articles into checklists of specific requirements. Of special value are the numerous ready-to-adapt template compliance documents presented in Part II. Because the GDPR contains a set of new obligations and a perspective of severe administrative fines for non-compliance, this guide is an indispensable practical resource for corporate data protection officers, in-house counsel, lawyers in data protection practice, and e-commerce start-ups worldwide. The EU General Data Protection Regulation (GDPR) Lukas Feiler, 2021. The second edition includes guidelines on the interpretation of the GDPR published by the European Data Protection Board as well as new case law by the Court of Justice of the European Union.

GDPR: Personal Data Protection in the European Union Mariusz Krzysztofek, 2021-04-07. GDPR: Personal Data Protection in the European Union. Mariusz Krzysztofek. Personal data protection has become one of the central issues in any understanding of the current world system. In this connection, the European Union (EU) has created the most sophisticated regime currently in force with the General Data Protection Regulation (GDPR) (EU 2016/679). Following the GDPR's recent reform, the most extensive since the first EU laws in this area were adopted and implemented into the legal orders of the Member States, this book offers a comprehensive discussion of all principles of personal data processing, obligations of data controllers, and rights of data subjects, providing a thorough up-to-date account of the legal and practical aspects of personal data protection in the EU. Coverage includes the recent Court of Justice of the European Union (CJEU) judgment on data transfers and new or updated data protection authorities' guidelines in the EU Member States. Among the broad spectrum of aspects of the subject covered are the following: right to privacy; judgments of the CJEU and the European Court of Human Rights; scope of the GDPR and its key definitions; key principles of personal data processing; legal bases for the processing of personal data; direct and digital marketing; cookies and online behavioural advertising; processing of personal data of employees; sensitive data and criminal records; information obligation; data subjects' rights; data controller; joint controllers and processors; data protection by design and by default; data security measures; risk-based approach; records of personal data processing activities; notification of a personal data breach to the supervisory authority and communication to the data subject; data protection impact assessment; codes of conduct and certification; Data Protection Officer; transfers of personal

data to non EU EEA countries and privacy in the Internet and surveillance age Because the global scale and evolution of information technologies have changed the data processing environment and brought new challenges and because many non EU jurisdictions have adopted equivalent regimes or largely analogous regulations the book will be of great usefulness worldwide Multinational corporations and their customers and contractors will benefit enormously from consulting and using this book especially in conducting case law guidelines and best practices formulated by European data protection authorities For lawyers and academics researching or advising clients on this area this book provides an indispensable source of practical guidance and information for many years to come Compliance Guide to the Eu General Data Protection
