He is above all the first person who comes to mind talking about literature in the Twenties Owing to his novels and stories where he captured the nostalgia the spirit of that time is still very vivid even in our modern era In his narrative *The Ice Palace* which appeared in the short story collection *Flappers and Philosophers* in 1920 the reader is introduced to the problem of mental and emotional difference of people living in the Northern and Southern American states Fitzgerald thematizes several different problems in his short story but the main and crucial theme we discover which at the same time is the topic of this analysis is the quest for identity of the female protagonist
