Metaphorical Stories in Discourse L. David Ritchie, 2017 When Hillary Clinton conceded in 2008 that she didn't quite shatter the glass ceiling and when Rick Perry in 2012 called Mitt Romney a vulture capitalist they used abbreviated metaphorical stories in which stories about one topic are presented as stories about something entirely different This book examines a wide range of metaphorical stories beginning with literary genres such as allegories and fables then focusing on metaphorical stories in ordinary conversations political speeches editorial cartoons and other communication Sometimes metaphorical stories are developed in rich detail in other examples like vulture capitalist they may merely be referenced or implied This book argues that close attention to metaphorical stories and story metaphors enriches our understanding and is essential to any theory of communication The book introduces a theoretical structure which is developed into a theory of metaphorical stories and then illustrates the theory by applying it to actual discourse

Metaphor in Educational Discourse Lynne Cameron, 2003-03-13 Metaphor in Educational Discourse is a superb piece of applied linguistics research that integrates Vygotsky's theory of concepts with current work on metaphor into a coherent framework for investigating how teachers and learners negotiate figurative language in order to promote development in the classroom setting In what is likely to become the standard for future studies in this area Lynne Cameron meticulously demonstrates the central role of linguistic metaphors in classroom learning designed to lead learners to a deeper understanding of complex mathematical and scientific concepts James P Lantolf Professor of Applied Linguistics The Pennsylvania State University This book reports research into metaphor in use with school students The setting for the research is a UK school and the participants are around ten years old with their first language well established but still developing concepts and understandings Close examination of a corpus of classroom spoken discourse reveals how metaphor is employed by their teachers not just in explaining ideas but in managing and mediating the activity of the classroom and the learning of the students Particular issues discussed include the problems of identifying metaphors in spoken discourse the conventionalism of metaphors in the discourse of socio cultural groups and how a socio cultural approach can account for systematicity in metaphor use
