Meditations of a Modern Warrior Paul Higgins CAS SAC DIP, 2012-11-14 In today's often violent world accepting the warrior path as a way of life is not the prerogative of the modern soldier We now have warriors in every walk of life civilian warriors law enforcement warriors executive protection warriors and of course military warriors This first volume gives insight into how being a modern warrior impacts our everyday life how we live through physical and mental conditioning awareness of personal mobile and home security for example The chapters not only supply the reader with information but require the reader to continually question themselves as they journey along the warrior path A History of Modern Mercenary Warfare Harry McCallion, 2025-11-04 Explores the development of modern mercenary forces from the British operation in Yemen in late 1960 s to today's War in Ukraine Since before the time of Alexander the Great trained soldiers have sold their expertise on battlefield around the World fighting and dying in other people's wars for money glory or the lust for violence and combat In this book Harry McCallion explores the development of modern mercenary forces from the British SAS led deniable operation in Yemen in late 1960 s during which the Israelis were persuaded to arm the SAS led Yemeni tribesmen through the bush wars in Africa Britain's ill fated intervention in the war in Afghanistan right up to today's War in Ukraine Many of the modern day British mercenaries were known to the author personally including such notable figures as the legendary SAS Fijian warriors Tak Takevesia who although in his early sixties shot his way out of an ambush in Bagdad and Fred Big Fred Mrafano who devoted himself to the cause of the people of Sierra Leone SAS veteran Bill Scully who received the Queen's Gallantry Medal single handedly protected 1 300 civilians from rebel troops during the uprising in May 1997 after the Sierra Leone coup and American Vietnam veteran Major Mac Mackenzie who although badly

wounded in Vietnam rose from trooper to command a Rhodesian SAS squadron and was one of the units most highly decorated soldiers Also included are more notorious figures like Costas Georgiou also known by his alias Colonel Callan who served in the 1st Battalion of the Parachute Regiment but was dishonorably discharged and sentenced to five years in prison for a post office robbery later he proclaimed himself a Colonel and led a group of psychopathic mercenaries in the Angolan War of Independence before being captured and executed by Angolan forces The book explores the roles of modern day mercenaries who s use has expanded precisely because they are mercenaries fighting for money and not love of country their deaths are not seen as a patriotic sacrifice often they go unreported and in turn helps to conceal the true tragic human cost of waging a war As one former private military contractor recently stated to Australian TV If you want to conquer in the 21st century you use mercenaries special forces things to keep war secret and nobody s better at secret wars than mercenaries

The Bullet-catchers Tony Geraghty,1989 **Meditations of a Modern Warrior** Paul 'Rock' Higgins,2014-09-08 This second volume carries on where the first book finished Here again you are taken through a small percentage of what you as a modern day warrior must know not only for personal safety but also for the safety of your family or the ones whom you protect You will find not only physical applications but also mental development chapters and also challenges some of the myths which in the protection industry run rife Your journey on the warrior path is full of questions tall tales challenges trial and error This book is here to help keep you the warrior on your chosen path **Whitaker's Books in Print** ,1998 *The Unconventional Close Protection Training Manual* Robert Scali,2018-01-27 I wrote this book to teach people with no background in the protection industry how to not only be their own bodyguard but how to learn new skills so that they may eventually protect other people professionally If you want to learn the business and become a Private Security or Close Protection Operator you must learn a series of skill sets How you gain any skill set can vary from person to person Some people acquire the skills in the military police or even after years of hands on martial arts training You do not have to become a Green Beret Navy SEAL or CIA Contractor to acquire a series of proficient skill sets on survival combatives or shooting All you have to do to acquire some new skills in personal protection is to have the desire to learn and then apply what you have learned safely and with a high level of proficiency I will pass on small pearls of wisdom throughout this book The gems that I pass on to you have been passed on to me in many different ways throughout my life Each jewel will be a new skill or a direction to learn The more that you learn the more you will understand Any person with the passion for learning will pick up these new skills and instantly apply them The more that you read about close protection the more you will learn from this book The more that you physically do the more ingrained your skills will become into daily operational procedures Even if you learn just one new thing from this book that saves your life or someone else s then it was worth learning that skill Stay flexible in your thinking and keep an open mind as you read this book The more you learn about yourself the more you will want to know and apply your new skills towards your everyday life Eventually you will be able to tie all of the pearls from this
