Chaucer, the Prologue to the Canterbury Tales John E. Cunningham, Geoffrey Chaucer, 1989 **Epic** Paul Innes, 2013-02-11 This student guidebook offers a clear introduction to an often complex and unwieldy area of literary studies Tracing epic from its ancient and classical roots through postmodern and contemporary examples this volume discusses a wide range of writers including Homer Vergil Ovid Dante Chaucer Milton Cervantes Keats Byron Eliot Walcott and Tolkien texts from poems novels children's literature tv theatre and film themes and motifs such as romance tragedy religion journeys and the supernatural Offering new directions for the future and addressing the place of epic in both English

language texts and World Literature this handy book takes you on a fascinating guided tour through the epic *The Storyteller's Memory Palace* Hanne Bewernick, 2010 Storytelling and remembering rely on similar practices they both arrange images in an ordered structure A story is initially memorised by the author in a mental structure which is transferred to the page via the author's choice of location organisation and imagery An interpretation that emphasises these features enhances the natural capacity for comprehension by mimicking the memory process This study describes and uncovers memory systems including the memory palace and the memory journey in medieval texts The ancient memory techniques are compared to cognitive psychology and used to interpret four modern novels A practical method of interpretation is devised which provides the reader with direct access to a story by opening the door into the storyteller's memory palace **The Road to Canterbury** Geoffrey Chaucer, 1979 **The Reader's Adviser and Bookman's Manual**, 1960 **The Publishers Weekly**, 1945-03 **Reader's Adviser and Bookman's Manual**, 1960 **Science in the Ancient World** Russell M. Lawson, 2021-09-23 Science in the Ancient World presents a worldwide history of science from prehistoric times through the medieval period It covers Europe Africa Asia and the Americas and includes topics ranging from alchemy and astrology to psychology and physics This work spans prehistory to 1500 CE examining thousands of years of history in four world regions Asia Africa Europe and the Americas Highlights of this period include the onset of civilization and science in Mesopotamia and Egypt the accomplishments of the ancient Greeks between 700 BCE and 100 CE the adaptation of Greek science by the Romans the spread of Greek science during the Hellenistic Age the expansion of Islamic power and commensurate scientific knowledge and the development of science and philosophy in ancient China and India Focusing on the history of the science that blossomed in the above regions scientific disciplines covered include alchemy astronomy astrology agriculture architecture biology botany chemistry engineering exploration geography hydraulics institutions of science marine science mathematics medicine meteorology military science myth and religion philosophy philosophy of science psychology physics and social sciences In all of these fields theory and application are explored as are leading individuals and schools of thought centers of intellectual activity and notable accomplishments and inventions **Landmarks of the Western Heritage** Charles Warren Hollister, 1967 **The Image of the English Gentleman in Twentieth-Century Literature** Christine Berberich, 2016-03-03 Studies of the English gentleman have tended to focus mainly on the nineteenth century encouraging the implicit assumption that this influential literary trope has less resonance for twentieth century literature and culture Christine Berberich challenges this notion by showing that the English gentleman has proven to be a remarkably adaptable and relevant ideal that continues to influence not only literature but other forms of representation including the media and advertising industries Focusing on Siegfried Sassoon Anthony Powell Evelyn Waugh and Kazuo Ishiguro whose presentations of the gentlemanly ideal are analysed in their specific cultural historical and sociological contexts Berberich pays particular attention to the role of nostalgia and its relationship to Englishness Though Englishness and by extension the English

gentleman continue to be linked to depictions of England as the green and pleasant land of imagined bygone days Berberich counterbalances this perception by showing that the figure of the English gentleman is the medium through which these authors and many of their contemporaries critique the shifting mores of contemporary society Twentieth century depictions of the gentleman thus have much to tell us about rapidly changing conceptions of national class and gender identity **A**
