measurement and assessment techniques personality processes and individuals differences and research Provides a comprehensive and in depth overview of the field of personality psychology The Encyclopedia of Personality and Individual Differences is an important resource for all psychology students and professionals engaging in the study and research of personality *Experiencing 'Flow' in Jazz Performance* Dr Elina Hytönen-Ng, 2013-08-28 The term flow refers to experiences where the musician moves into a consciousness in which time seems to be suspended and perception of reality is blurred by unconscious forces An essential part of the jazz tradition which often serves as the foundation of the musician's identity flow is recognised within the greater jazz community as a critical factor in accomplished musicianship Flow as a concept is so deeply embedded in the scene that these experiences are not generally discussed It contributes to the musician's work motivation providing a vital level of satisfaction and accomplishment The power of the experience consciously or unconsciously has given rise to the creation of heroic images in which jazz musicians are seen as being bold yet vulnerable strong and masculine but still capable of expressing emotions In this discourse musicians are pictured as people constantly putting themselves on the line exposing themselves and their hearts to one another as well as to the audience Heroic profiles are richly constructed within the jazz scene and their incorporation into narratives of flow suggests that such images are inseparable from jazz It is thus unclear how far the musicians are simply reporting personal experience as opposed to unconsciously perpetuating a profoundly internalised mythology Drawing on eighteen interviews conducted with professional jazz musicians from around the world Elina Hytönen-Ng examines the fundamentals of the phenomenon of flow in jazz that has led to this genre's popularity Furthermore she draws on how flow experiences are viewed and constructed by jazz musicians the meanings they attach to it and the quality of music that it inspires **Self-Help, Inc.** Micki

McGee, 2005-09-08 Why doesn't self help help Cultural critic Micki McGee puts forward this paradoxical question as she looks at a world where the market for self improvement products books audiotapes and extreme makeovers is exploding and there seems to be no end in sight Rather than seeing narcissism at the root of the self help craze as others have contended McGee shows a nation relying on self help culture for advice on how to cope in an increasingly volatile and competitive work world Self Help Inc reveals how makeover culture traps Americans in endless cycles of self invention and overwork as they struggle to stay ahead of a rapidly restructuring economic order A lucid and fascinating treatment of the modern obsession with work and self improvement this lively book will strike a chord with its acute diagnosis of the self help trap and its sharp suggestions for how we can address the alienating conditions of modern work and family life *The Futurist*, 1996

Happier? Daniel Horowitz, 2017-11-01 When a cultural movement that began to take shape in the mid twentieth century erupted into mainstream American culture in the late 1990s it brought to the fore the idea that it is as important to improve one's own sense of pleasure as it is to manage depression and anxiety Cultural historian Daniel Horowitz's research reveals that this change happened in the context of key events World War II the Holocaust post war prosperity the rise of counter

culture the crises of the 1970s the presidency of Ronald Reagan and the prime ministerships of Margaret Thatcher and David Cameron provided the important context for the development of the field today known as positive psychology Happier provides the first history of the origins development and impact of the way Americans and now many around the world shifted from mental illness to well being as they pondered the human condition This change which came about from the fusing of knowledge drawn from Eastern spiritual traditions behavioral economics neuroscience evolutionary biology and cognitive psychology has been led by scholars and academic entrepreneurs as they wrestled with the implications of political events and forces such as neoliberalism and cultural conservatism and a public eager for self improvement Linking the development of happiness studies and positive psychology with a broad series of social changes including the emergence of new media and technologies like TED talks blogs web sites and neuroscience as well as the role of evangelical ministers Oprah Winfrey s enterprises and funding from government agencies and private foundations Horowitz highlights the transfer of specialized knowledge into popular arenas Along the way he shows how marketing triumphed transforming academic disciplines and spirituality into saleable products Ultimately Happier illuminates how positive psychology one of the most influential academic fields of the late twentieth and early twenty first centuries infused American culture with captivating promises for a happier society
