The Gcc Countries And The Arab Spring Between Outreach:

The GCC Countries and the Arab Spring Silvia Colombo, 2012 In 2011 the Gulf Cooperation Council GCC countries have been confronted with increasing challenges stemming from the Arab uprisings Internally they have had to face popular mobilization and discontent triggering a mixed reaction made up of economic handouts patronage limited political and economic reforms as well as military intervention and repression Externally they have actively intervened in support of the protest movements in Syria and Libya and enthusiastically facilitated president Saleh's departure from Yemen At first sight these responses may seem schizophrenic At closer inspection though managing instability by shoring up friendly regimes on the inside and expanding the GCC's influence outside represent two sides of the same coin This paper aims at unpacking the GCC's responses to the Arab Spring by making use of the concept of double standard It is argued that three main dichotomies inside vs outside monarchies vs republics and Sunnis vs Shiites explain the GCC's reaction and its implications for the future of the MENA region

The Arab Spring and Arab Thaw John Davis, 2016-04-01 What were the unifying principles or strategies that governed the protest movements that swept the Middle East and North Africa in the spring of 2011 Who were the protestors and how did the different authoritarian regimes respond to them How did regional and international institutions react to a region in turmoil The Arab Spring and Arab Thaw Unfinished Revolutions and the Quest for Democracy addresses these questions by examining a range of successful and unsuccessful protest strategies and counter revolutionary tactics employed by protestors and autocratic regimes Contributors explore the reactions of the USA EU and Arab League to events in the region and provide insight as to the gendered dimensions of the struggle along with the ethnic and tribal divisions that continue to impact the post revolt period By addressing these critical queries the book demonstrates how the Arab Spring has evolved into a protracted Arab Thaw that continues to profoundly affect regional and international politics

Bridging the Gulf: EU-GCC Relations at a Crossroads Silvia Colombo, 2014-05-27 Relations between the European Union EU and the Gulf Cooperation Council GCC are at a crossroads After the derailment of the negotiations for the Free Trade Agreement FTA in 2008 the cooperation between the two regional blocs has remained low key in a number of different areas while the unprecedented changes that have taken place in North Africa and the Middle East the common neighbourhood of the EU and the GCC have not led to a renewed structured cooperation on foreign and security policy issues This volume addresses the shortcomings and potential of EU GCC relations by taking stock of their past evolution and by advancing policy recommendations as to how to revamp this strategic cooperation In this light it highlights the areas where greater room for manoeuvre exists in order to enhance EU GCC relations discusses the instruments available and sheds light on the features of the regional and international context that are likely to significantly influence the new phase in the mutual relation between the two blocs The book is the result of the research conducted in the framework of the project Sharaka Enhancing Understanding and Cooperation in EU GCC Relations co funded by the European Commission

GCC

Hydrocarbon Economies and COVID Nikolay Kozhanov, Karen Young, Jalal Qanas, 2023-01-21 The book considers the impact of COVID 19 on the GCC member states through the prism of challenges faced by their hydrocarbon sector Yet the publication s discourse is not solely focused on the problems experienced by the oil and gas industries of the GCC member states after the beginning of the COVID pandemic Instead the contributors will analyze how these challenges and subsequent response to them affected other aspects of the GCC socio economic and political development from direct impact of the COVID on the energy sector of the GCC to socio economic consequences of the oil market crisis for the region and its potential fallouts for the international relations of the Gulf

The Arab Uprisings Eberhard Kienle, Nadine Sika, 2015-06-22 The uprisings which spread across the Middle East and North Africa in late 2010 and 2011 irrevocably altered the way in which the region is now perceived But in spite of the numerous similarities in these protests from Tunisia and Egypt to Yemen and Bahrain their broader political effects display important differences This book analyses these popular uprisings as well as other forms of protest and the impact they had on each state Why were Mubarak and Bin Ali ousted relatively peacefully in Egypt and Tunisia while Qadafi in Libya and Saleh in Yemen fought violent battles against their opponents Why do political transformations differ in countries that were able to shed their autocratic presidents And why have other regimes including Morocco and Saudi Arabia experienced only limited protests or managed to repress and circumvent them Looking at the aftermath and transitional processes across the region this book is a vital retrospective examination of the uprisings and how they can be understood in the light of state formation and governmental dynamics

Social Media in the Arab World Barrie Gunter, Mokhtar Elareshi, Khalid Al-Jaber, 2016-04-21 Following the Arab Spring the use of social media has become instrumental in organising activist movements and spreading political dissent in the Middle East New online behaviours have transformed traditional communication channels enabling young people of all backgrounds to feel politically empowered But now that spring has turned to winter what are the long term implications of internet activism in the region Social Media in the Arab World provides a unique insight into the role of online communications as a force for change in the Gulf States Featuring examples as diverse as neo patrimonial politics in Saudi Arabia and the ways an online presence affects the status of women in Kuwait the chapters examine shifts in the political social and religious identities of citizens as a result of increased digital activism With contributions from a variety of inter disciplinary experts this wide ranging study examines the consequences of changing power dynamics brought about by popular social media In doing so this book offers an original perspective on the long term implications of internet usage in the Arab world and is essential reading for students and researchers working across the region

Regional Organizations and Peacemaking Peter Wallensteen, Anders Bjurner, 2014-08-21 This book analyses the new and difficult roles of regional organizations in peacemaking after the end of the Cold War and how they relate to the United Nations UN Regional organizations have taken an increasingly prominent role in international efforts to deal with international security The book highlights the complex interaction between the

regional and sub regional organizations on the one hand and their relations with the United Nations on the other Thus the general issues of UN and its authority are scrutinized from legal practical and geopolitical perspectives Taking on a broad geographical focus on Africa the Arab world and Europe the book also provides an extensive range of case studies with detailed analysis of particular situations organizations and armed conflicts The authors scrutinise the heterogeneous relationship between the different organizations as well as the challenges to them political resources legal standing financial assets capabilities and organizational set up Moreover they investigate whether regional organizations as compared to the UN are better suited to deal with today s intra state conflicts The book also aims to dissect the evolution of these institutions historically in relation to Chapter VIII of the UN Charter which mentions the resort to regional arrangements for conflict management as well as more generally in relation to the principles of international law and UN principles of peacemaking This book written by a mixture of established scholars diplomats and high level policymakers will be of great interest to students as well as practitioners in the field of peace and conflict studies regional security international organisations conflict management and IR in general

The Rising Gulf Valeria Talbot (a cura di), 2016-09-09 Over the last years the Gulf monarchies emerged as assertive players both in the MENA region and in the global context Relying on their huge energy reserves and financial assets these states acquired increasing international leverage On the one hand the oil monarchies moved eastwards exploiting the opportunity provided by emerging Asian markets to diversify their energy relations and economic interests On the other they were prompted by the 2011 uprisings to modify their traditional stance in favour of a more proactive approach that dramatically altered their influence in the region However Gulf activism comes at a time when the monarchies are facing important internal and external challenges In this complex puzzle the report aims to assess to what extent the rising Gulf monarchies are able to play as key actors at both the regional and the international levels Are Gulf monarchies adopting sustainable domestic policies in the long term How have they extended their influence in the MENA region How are they reshaping their international relations How do they act in the world energy market What are the implications of the Gulf s new assertiveness for the EU states

North African Politics Yahia H. Zoubir, Gregory White, 2015-09-16 In the aftermath of the turmoil that shook North Africa in late 2010 and early 2011 commentators and analysts have sought explanations to the factors that triggered the uprisings and to understand why a region seemingly characterized by relative stability for decades would suddenly erupt in convulsions Had an underlying dynamism in the region overwhelmed what were ostensibly stable authoritarian regimes What were the connections to events and dynamics beyond the region such as countries in the Middle East international commodity markets and environmental factors amongst others Why had allies abetted authoritarianism for so long and what were the implications for such alliances

North African Politics Change and continuity brings together experts to explore these questions providing in depth analyses of important developments in the region which build upon and complement the 2008 companion volume *North Africa Politics Region and*

the Limits of Transformation This 21 chapter volume is a key contribution that responds to the need in the Anglo American sphere for sustained critical studies on North Africa and examines political economic security social and military aspects of the region Focused studies on individual countries allow detailed discussion of regional factors The book also examines extrinsic trans regional dynamics such as North Africa s influential interdependencies with the Levant and the Gulf Europe Sahelian and sub Saharan Africa and North America Its innovative approach provides new perspectives on North Africa extending its research scope to include Egypt and exploring China s evolving role in the region Providing an important contribution in the assessment of the ever shifting political and social tectonics within and beyond North Africa North African Politics is an essential resource for students scholars and policy makers in Middle Eastern and North African Studies and beyond
