Henry Miller: The Inhuman Artist Indrek Männiste, 2013-06-20 Against skeptics Männiste argues that Miller does indeed have a philosophy of his own which underpins most of his texts It is demonstrated that this philosophy as a metaphysical sense of life forms a system the understanding of which is necessary to adequately explain even some of the most basic of Miller's ideas Building upon his notion of the inhuman artist Miller's philosophical foundation is revealed through his literary attacks against the metaphysical design of the modern age It is argued that by repudiating some of the most potent elements of late modernity such as history modern technology and an aesthetized view of art Miller paves the way for overcoming Western metaphysics Finally it is shown that philosophically this aim is governed by Miller's idiosyncratic concept of art in which one is led towards self liberation through transcending the modern society and its dehumanizing pursuits

Tropic of Cancer Henry Miller, 2005 A penniless and as yet unpublished writer Henry Miller arrived in Paris in 1930 Leaving behind a disintegrating marriage and an unhappy career in America he threw himself into the low life of Bohemian Paris with unwavering gusto

The War Within - Between Good and Evil Bhimeswara Challa, The human has always prided himself as an exceptional moral species but has always been haunted by two questions Why am I not good when I want to be why do I do bad when I don't want to This is at the heart of what scriptures and sages have long alluded to as the eternal internal struggle between good and evil that wages in the human consciousness The book posits that much of our confusion and angst stems from our inability to recognize the ramifications of this war between two sides of our own self It is because we are ignoring this war between two sides of our own self It is because we are ignoring this war that we are losing all other wars of the world That ignorance is the primary source of all the horrors malevolence and violence that fill us with so much dread But a favorable outcome is possible only if the forces of goodness are aided to get an upper hand consistently and that calls for two cathartic changes consciousness change by inducing a turn from the mind to the heart and contextual change by radically reconstructing the roles of morality money and mortality in our everyday lives The book offers a menu of insights and options we all can use to tilt the scales in the war waging inside each of us

Novel Ideas Paul Williams, 2019-12-24 This concise yet comprehensive study explores innovative practice in the novel and from the perspective of creative writing the astonishing resilience of the novel form It offers a practical guide to the many possibilities available to the writer of the novel with each chapter offering exercises to encourage innovation and to expand the creative writer's narrative skills Beginning with early iterations of the novel in the 17th century this book follows the evocation of innovation in the novel through Realism Modernism Postmodernism and into today's dizzying array of digital and interactive possibilities While guiding the reader through the possibilities available in both genre and literary fiction this book encourages both aspiring and established writers to produce novels with imagination playfulness and gravitas Dynamic and interactive this text is distinctive in offering a grounding in the literary history of the novel while also equipping readers to
