Himalayan Dialogue:

Himalayan Dialogue Stan Mumford, 1989 In the mountain valleys of Nepal Tibetan communities have long been established through migrations from the North Because of these migrations over the last few centuries Tibetan lamaism as one of the world's great ritual traditions can be studied in the Himalayas as a process that emerges through dialogue with the more ancient shamanic tradition which it confronts and criticizes Here for the first time is a thorough anthropological study of Tibetan lamaism combining textual analysis with richly contextualized ethnographic data The rites studied are of the Nyingma Tibetan Buddhist tradition In contrast to the textual analyses that have viewed the culture as a finished entity here we see an unbounded ritual process with unfinished interpretations Mumford's focus is on the dialogue taking place between the lamaist and the shamanic regimes as a historic development occurring between different cultural layers The study powerfully demonstrates that interrelationships between subsystems within a given cultural matrix over time are critical to an understanding of religion as a cultural process

Death Consciousness and the East Sujeet Karn, 2024-08-30 This unique new book addresses the rise of death studies as an academic discipline and serves those who work in the anthropology of death and loss It gives a perspective on death with reference to Maoists politics and violence in Nepal so will also appeal to scholars of the region and its Maoists movements This work aims to add and contribute to cultural and regional perspective in death studies There has been little written on death studies in conflict situations from a South Asian perspective Therefore this book extends the current literature in death and bereavement perspectives beyond western academic exploration

Routeing Democracy in the Himalayas Vibha Arora, N. Jayaram, 2020-11-29 Historically treated as an amorphous borderland and marginal to the understanding of democratic politics and governance in South Asia Southeast Asia and northern Asia the Himalayan region in the last 50 years has become an active political laboratory for experiments in democratic structures and institutions In turn it has witnessed the evolution of myriad political ideologies movements and administrative strategies to accommodate and pacify heterogeneous ethnic national identities Routeing

Democracy in the Himalayas highlights how through an ongoing process of democratisation the Western liberal ideologies of democracy and decentralisation have interacted with varied indigenous politico cultural ideas and institutions of an ethnically nationally diverse population. It also reviews how formal democracy, regular elections, local self governing structures, protection of the rights of minorities and indigenous freedom of expression, development of mass media and formation of ethnic homelands all have furthered participatory democracy, empowered the traditionally marginalised groups and ensured sustainable development to varying degrees. The book provides ethnographic and historical vistas of democracy under formation at work, being contested and even being undermined, showing how democratisation thematically stitches the independent Himalayan nations and the Indian Himalayan states into a distinctive regional political mosaic. Combining new perspectives from comparative sociology, political anthropology and development studies, the volume will be useful for policy makers as well as specialists, researchers and students in sociology, anthropology, area studies, development studies and Tibet and Himalayan studies.

Tantric Revisionings Geoffrey Samuel, 2017-09-08. *Tantric Revisionings* presents stimulating new perspectives on Hindu and Buddhist religion, particularly their Tantric versions in India, Tibet or in modern Western societies. Geoffrey Samuel adopts an historically and textually informed anthropological approach, seeking to locate and understand religion in its social and cultural context. The question of the relation between popular folk, domestic village shamanic religion and elite literary, textual, monastic religion forms a recurring theme through these studies. Six chapters have not been previously published; the previously published studies included are in publications which are difficult to locate outside major specialist libraries.

Lamas, Shamans and Ancestors Anna Balikci, 2008-01-01. This careful study of the co-existence over time of Buddhism and shamanism among the Lhopo Bhutia people of Sikkim sheds new light on their supposedly hostile relationship. It examines the working relationships between Buddhist lamas and practitioners of bon, taking into consideration the sacred history of the land as well as its more recent political and economic transformation. Their interactions are presented in terms of the contexts in which lamas and shamans meet, these being rituals of the sacred land of the individual and household and of village and state. Village lamas and shamans are shown to share a conceptual view of reality which is at the base of their amiable co-existence. In contrast to the hostility which the recent literature suggests characterizes the lama shaman relationship, their association reveals that the real confrontation occurs when village Buddhism is challenged by its conventional counterpart.

9: Territory and Identity in Tibet and the Himalayas Katia Buffetrille, Hildegard Diemberger, 2021-11-01 Which places does Tibet include Are people Tibetan merely because of living in those places Territory and Identity are notions that are widely present in academic and popular discourses on Tibet In 1992 a group of French and Austrian researchers who had studied some of the mountain deities and sacred landscapes of Tibet began meeting to discuss the links between territory and identity in Tibetan culture Eight years later an interdisciplinary group of scholars met in Leiden in Holland to consider these questions in more detail This book contains some of their findings based on case studies carried out across the Tibetan and Himalayan regions The authors look at the role of local deities kinship economy politics and administration using approaches from across the social sciences to try to work out how a community constructs and reconstructs its idea of itself and how its members think about and are affected by the land on which they were reared **Religion at Work in**

Globalised Traditions Anders Kaliff, 2014-03-26 Why do traditions disappear How is the disappearance of tradition also a vehicle for social change and re inventions of practices and new traditions Using case studies from one Sukuma area along the southern shores of Lake Victoria in Tanzania global processes of how religions work in practice are analysed by focusing on rainmaking witchcraft and Christianity Traditionally Sukuma society was culturally and cosmologically structured around the chief the ancestors and rainmaking Everything was dependent upon the rain Rainmaking as a ritual practice has disappeared and ancestral propitiations are declining while at the same time Christianity is spreading and witchcraft and witch killings are increasing Although Christianity as a religion may provide answers and hopes for life after death the religion provides few solutions in the here and now when it comes to poverty and suffering problems and challenges that have to be solved Witchcraft on the other hand does or is believed to do so and the increase in witchcraft is analysed in relation to the impacts of more than a century of globalisation from the missionaries and colonizers onwards With the declining ancestral tradition witchcraft and Christianity as religious practices supplement each other in the ways they are believed to work in providing answers solutions or divine interferences in different realms this world and the Otherworld Offering an approach going beyond structural functionalism on different premises the book s focus on religion at work will

facilitate new understandings of how to study religion as it is perceived and believed in practice **The Tibetans** Matthew T. Kapstein, 2013-06-05 This book provides a clear and comprehensive introduction to Tibet its culture and history A clear and comprehensive overview of Tibet its culture and history Responds to current interest in Tibet due to continuing publicity about Chinese rule and growing interest in Tibetan Buddhism Explains recent events within the context of Tibetan history Situates Tibet in relation to other Asian civilizations through the ages Draws on the most recent scholarly and archaeological research Introduces Tibetan culture particularly social institutions religious and political traditions the arts and medical lore An epilogue considers the fragile position of Tibetan civilization in the modern world **Tibetan Shamanism** Larry Peters, 2016-09-27 Reflecting sixteen years of intensive fieldwork this book is a rich chronicle of the daily lives belief systems and healing rituals of four highly revered Tibetan shamans forced into exile by the Chinese invasion during the 1950s Larry Peters lived and studied closely with the shamans in Nepal learning their belief system observing and participating in their rituals and introducing many dozens of students to their worldview Including photographs of the shamans in ecstatic ritual and trance this book one of the most extensive ethnographic works ever done on Tibetan shamanism captures the end of Tibetan shamanism while opening a window onto the culture and traditions that survived centuries of attack in Tibet only to die out in Nepal The violent treatment of shamans by the Buddhist lama has a long history in Tibet and neighboring Mongolia At one point shamans were burned at the stake However in the mountainous Himalayan terrain especially in the difficult to reach areas geographically distant from the Buddhist monastic urban centers shamans were respected and their work revered Peters's authoritative and meticulous research into the belief systems of these last surviving representatives of the shamanic traditions of the remote Himalayas preserves in vivid detail the techniques of ecstasy described as pathways to the shamanic spiritual world *The Hundred Thousand Songs of Milarepa* Tsangnyön Heruka, 2017-09-05 An authoritative new translation of the complete Hundred Thousand Songs of Milarepa the teaching songs and stories from Tibet's most beloved Buddhist yogi poet and saint Powerful and deeply inspiring there is no book more beloved by Tibetans than *The Hundred Thousand Songs* and no figure more revered than Milarepa the great eleventh century poet and saint An ordinary man who through sheer force of effort faith and perseverance overcame nearly insurmountable obstacles on the spiritual path to achieve enlightenment in a single lifetime he stands as an exemplar of what it is to lead a spiritual life Milarepa a cotton clad yogi wandered and taught the dharma most famously through spontaneously composed songs a colorful and down to earth way to convey the immediacy and depth of the Buddhist teachings In this work the songs are woven into a narrative that tells the stories of his most famous encounters with his students including Gampopa and Rechungpa and recount his victories over supernatural forces in the remote Himalayan mountains and caves where he meditated In this authoritative new translation prepared under the guidance of Dzogchen Ponlop Rinpoche Christopher Stagg brilliantly brings to life the teachings of this extraordinary man This classic of world literature is important for its narrative alone but is also a key contribution for those

who seek inspiration for the spiritual path **Buddhism and the Dynamics of Transculturality** Birgit Kellner, 2019-10-08 For over 2500 years Buddhism was implicated in processes of cultural interaction that in turn shaped Buddhist doctrines practices and institutions While the cultural plurality of Buddhism has often been remarked upon the transcultural processes that constitute this plurality and their long term effects have scarcely been studied as a topic in their own right The contributions to this volume present detailed case studies ranging across different time periods regions and disciplines and they address methodological challenges as well as theoretical problems In addition to casting a spotlight on topics as diverse as the role of trade contacts in the early spread of Buddhism the hybrid nature of religious practices in Japan or Indo Tibetan relations in Tibetan polemical literature the individual papers jointly raise the question as to whether there might be something distinct about how Buddhism steers and influences forms of cultural exchange and is in turn shaped by modalities of cultural interaction throughout Asian as well as global history The volume is intended to demonstrate the need for investigating transcultural dynamics more closely in the study of Buddhism and to suggest new avenues for Buddhist Studies
