Toward a Catholic Theology of Nationality Dorian Llywelyn, 2010-06-28 Nationality continues to be an important part of how people identify themselves and others Who am I is inseparable from the question Who and what are we Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions Catholic theology however has never elaborated on a systematic treatment of nationality Dorian Llywelyn forges a new approach treating the nation as a form of culture He addresses some key questions How are the religious and national aspects of human identity connected What does Catholic doctrine have to say about nationality and nationalism Is there really such a thing as a Christian nation Is Catholicism compatible with patriotism Llywelyn s wide ranging book introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism

Drawing from the insights of sociology history and anthropology he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter He provides an original Catholic theology of national belonging one which is based on the implications of the Incarnation Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values

Japan's Aging Peace Tom Phuong Le, 2021-06-22 Since the end of World War II Japan has not sought to remilitarize and its postwar constitution commits to renouncing aggressive warfare Yet many inside and outside Japan have asked whether the country should or will return to commanding armed forces amid an increasingly challenging regional and global context and as domestic politics have shifted in favor of demonstrations of national strength Tom Phuong Le offers a novel explanation of Japan's reluctance to remilitarize that foregrounds the relationship between demographics and security Japan's Aging Peace demonstrates how changing perceptions of security across generations have culminated in a culture of antimilitarism that constrains the government's efforts to pursue a more martial foreign policy Le challenges a simple opposition between militarism and pacifism arguing that Japanese security discourse should be understood in terms of multiple militarisms which can legitimate choices such as the mobilization of the Japan Self Defense Forces for peacekeeping operations and humanitarian relief missions Le highlights how factors that are not typically linked to security policy such as aging and declining populations and gender inequality have played crucial roles He contends that the case of Japan challenges the presumption in international relations scholarship that states must pursue the use of force or be punished showing how widespread normative beliefs have restrained Japanese policy makers Drawing on interviews with policy
