Comprehending and Speaking about Motion in L2 Spanish Samuel A. Navarro Ortega, 2017-01-28 This book presents a novel analysis of the learning of motion event descriptions by Anglophone students of Spanish The author examines cross linguistic differences between English and Spanish focusing on the verbal patterns of motion events to explore how learners overcome an entrenched first language preference to move toward the lexicalization pattern of the additional language His findings highlight the gradual nonlinear process Anglophones traverse to acquire and produce form meaning mappings describing motion in Spanish The author suggests that as motion event descriptions are not normally the focus of explicit instruction students learn this concept primarily from exposure to Spanish Given its interdisciplinary nature this book will be of interest to researchers working in Hispanic linguistics cognitive

Crosslinguistic Influence and Distinctive Patterns of

Language Learning Anne Golden, Scott Jarvis, Kari Tenfjord, 2017-09-22 This book details patterns of language use that can be found in the writing of adult immigrant learners of Norwegian as a second language L2 Each study draws its data from a single corpus of texts written for a proficiency test of L2 Norwegian by learners representing 10 different first language L1 backgrounds The participants of the study are immigrants to Norway and the book deals with the varying levels and types of language difficulties faced by such learners from differing backgrounds The studies examine the learners use of Norwegian in relation to the morphological syntactic lexical semantic and pragmatic patterns they produce in their essays Nearly all the studies in the book rely on analytical methods specifically designed to isolate the effects of the learners L1s on their use of L2 Norwegian and every chapter highlights patterns that distinguish different L1 groups from one another

Task-based grammar teaching of English Susanne Niemeier, 2017-10-23 The focus on communication in TBLT often comes at the expense of form In this book the task based approach is enhanced and coupled with insights into cognitive grammar an approach which sees grammar as meaningful The book shows how grammar teaching can be integrated into a communicative lesson in a non explicit way i e by the backdoor The learners are involved in situations that they may also encounter outside their classrooms and they are given communicative tasks they are to work on and solve usually with a partner or in small groups What teachers need to invest for preparing such lessons is their own creativity as they have to come up with communicative situations which guide the learners into using a specific grammatical structure The book first discusses the didactic and the linguistic theories involved and then translates these theoretical perspectives into actual teaching practice focusing on the following grammatical phenomena tense aspect modality conditionals passive voice prepositions phrasal verbs verb complementation pronouns and articles

Dimensions of L2 Performance and Proficiency Alex Housen, Folkert

Kuiken, Ineke Vedder, 2012-10-17 Research into complexity accuracy and fluency CAF as basic dimensions of second language performance proficiency and development has received increased attention in SLA However the larger picture in this field of research is often obscured by the breadth of scope multiple objectives and lack of clarity as to how complexity accuracy and fluency should be defined operationalized and measured The present volume showcases current research on CAF by bringing together eleven contributions from renowned international researchers in the field These contributions not only add to the body of empirical knowledge about L2 use and L2 development by bringing new research findings to light but they also address fundamental theoretical and methodological issues by responding to questions about the nature manifestation development and assessment of CAF as multifaceted constructs Collectively the chapters in this book illustrate the converging and sometimes diverging approaches that different disciplines bring to CAF research
