which seem particularly amenable to analysis through a transnational lens The chapters in Part 1 present case studies in which the concept replaces or complements traditionally dominant concepts in literary studies These chapters demonstrate for example why some dramatic texts and performances can better be described as transnational than as postcolonial and how the transnational underlies and complements concepts such as world literature Part 2 assesses the advantages and limitations of writing literary history with a transnational focus These chapters illustrate how such a perspective loosens the epistemic stranglehold of national historiographies but they also argue that the transnational and national agendas of literary historiography are frequently entangled The chapters in Part 3 identify transnational genres such as the transnational historical novel transnational migrant fiction and translinguistic theatre and analyse the specific poetics and politics of these genres

Powell, 2018-11-23 Horror Culture in the New Millennium Digital Dissonance and Technohorror explores the myriad ways in which technology is altering the human experience as articulated in horrific storytelling The text surveys a variety of emerging trends and story forms in the field through both a series of critical essays and personal interviews with scholars editors authors and artists now creating and refining horror stories in the new millennium The project posits a rationale for the presence of technohorror as a defining concern in contemporary horror literature marking a departure from the monstrous and spectral traditions of the twentieth century in its depictions of frightful narratives marked by the qualities of plausibility mundanity and surprise as we tell stories about what it means to be human As our culture explores the dichotomies of the born made natural artificial and human computer all while subsumed within a paradigm shift predicated on the transition from the traditions of print to emerging digital communications practices these changes form the basis for horrific speculations in our texts and technologies Ultimately Digital Dissonance Horror Culture in the New Millennium explores that paradoxical human attraction for peering into the darkness as translated through our lived experiences in an era of rapidly evolving technologies

Seeds For Democratic Futures Frederic Hanusch, Anna Katsman, 2024-12-12 The 17 essays in this volume investigate potentials for democratizing democracies From finding faith to reclaiming the commons each essay aims to plant a seed which carries the promise of

democratic potentials Dealing with topics like planetary change AI and plural knowledge systems the book acts as an inspiration calling for unorthodox compassionate and experimental approaches It is an invitation to cultivate democratic futures that are as diverse resilient and vibrant as the societies they aim to serve *The World According to Philip K. Dick* A. Dunst, S. Schlensag, 2015-04-05 As the first essay collection dedicated to Philip K. Dick in two decades this volume breaks new ground in science fiction scholarship and brings innovative critical perspectives to the study of one of the twentieth century's most influential authors Fluid Futures Steven Shaviro, 2024-08-13 How does science fiction imagine forms of life that are plausible and yet different from anything that we already know *Fluid Futures* is about how science fiction imagines an open future Science fiction does not claim to predict what will actually happen in times to come But it offers pictures of potential developments it narrates the unfolding of possibilities for change that are already implicit or incipient in the present moment As Rod Serling said science fiction is the improbable made possible The book starts by looking at three tools that are commonly used in science fiction to address futurity extrapolation speculation and fabulation It goes on to consider concrete examples of how science fiction texts employ these tools to illustrate ways in which the future might be different from but not entirely discontinuous with the present day conditions with which we are familiar *Fluid Futures* insists upon the aboutness of science fiction as it depicts situations and ideas that are at once possible and difficult to grasp The book then explores how the genre embraces fictionality and narrative reconceives time and projects images of possible worlds The point of the book is not to give a theory of science fiction Instead it emphasizes the ways that science fiction texts themselves propose theories leading readers to reconceive concepts that we have taken for granted Anime, Philosophy and Religion Kaz Hayashi, William H. U. Anderson, 2023-10-17 Anime is exploding on the worldwide stage Anime has been a staple in Japan for decades strongly connected to manga So why has anime become a worldwide sensation A cursory explanation is the explosion of online streaming services specializing in anime like Funimation and Crunchyroll Even more general streaming services like Netflix and Amazon have gotten in on the game Anime is exotic to Western eyes and culture That is one of the reasons anime has gained worldwide popularity This strange aesthetic draws the audience in only to find it is deeper and more sophisticated than its surface appearance Japan is an honor and shame culture Anime provides a platform to discuss universal problems facing human beings It does so in an amazing variety of ways and subgenres and often with a sense of humor The themes characters stories plotlines and development are often complex This makes anime a deep well of philosophical metaphysical and religious ideas for analysis International scholars are represented in this book There is a diversity of perspectives on a diversity of anime themes content and analysis It hopes to delve deeper into the complex world of anime and demonstrate why it deserves the respect of scholars and the public alike 20XX 〇〇〇〇〇〇〇〇—〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇〇 〇〇〇〇〇〇〇 〇〇〇〇, 2020-12-22 Digital Medicine Lab VERSE Dunne Raby COVID 19 Speculative design 20XX Speculative design Bound Baw STARTS Prize 2020 Ars Electronica 2015 Hybrid Arts 2016 BioArt and Design Award 2015 Core 77 Speculative
