ICESC 2019 Julius Tanesab, Adrianus Amheka, Butje Fanggi, 2019-10-18. We are delighted to introduce the proceedings of the 1st International Conference on Engineering Science and Commerce. ICESC 2019 Tourism is one of the fastest growing industries and contributes a great deal to economies around the world. However, it is inevitable that activities in the development of the tourism industry have caused many problems both in local culture and the environment. What is the role of Engineering Science and Commerce to support Sustainable Tourism? This conference has brought researchers, academicians, and practitioners to contribute to the body of knowledge and practical problem solving from the field of engineering science and technology that are relevant to support sustainable tourism. Engineering papers focused on the role of renewable energy, information technology, civil and mechanical engineering researches that support sustainable tourism. In the field of science, the papers discussed achievements of the latest technology in finding environmentally friendly products. The role of business and accounting systems to support sustainable tourism was indicated by more than 20 papers. We hope that the proceedings will be an exceptional source for readers who concern to the impacts of the development of tourism on natural resources, consumption patterns, pollution, and social systems.
