The College Instructor's Guide to Writing Test Items Michael Rodriguez, Anthony Albano, 2017-05-25 The College Instructor's Guide to Writing Test Items Measuring Student Learning addresses the need for direct and clear guidance on item writing for assessing broad ranges of content in many fields. By focusing on multiple choice response items, this book provides college instructors the tools to understand, develop, and use assessment activities in classrooms in a way that consistently supports learning. Including dozens of example items and additional resources to support the item development process, this volume is unique in its practical focus and is essential reading for instructors and soon-to-be educators, professional development specialists, and higher education researchers. As teaching, assessment, and learning are inherently intertwined, *The College Instructor's Guide to Writing Test Items* both facilitates the development of instructors' own practice and improves the learning outcomes and success of students.

Handbook for Undergraduate Research Advisors Faith A. Wilson, Jeffrey L. Thomas, 2016-08-16 Written for a diverse academic audience, this text serves as a handbook for professors, instructors, and advisors who oversee data collection by undergraduate students for the purpose of writing a research report. Section One provides background information concerning today's diverse undergraduate student population and the increasing emphasis placed on research in the college classroom and field settings. Section Two presents strategies for enhancing the research writing skills of undergraduate students. Finally, Section Three examines specific research contexts, including service learning projects, science lab fieldwork, internships, portfolios, and visual arts inquiry. Adult educational theory is woven throughout the text along with international perspectives.
