Longman Dictionary of English Language and Culture Della Summers, 1998 An invaluable dictionary for students who want a real insight into the culture of the English speaking world Now fully updated it includes references as diverse as Michael J Fox Rugrats and Woodstock to Ally McBeal Frasier and Wall Street

Longman Dictionary of the English Language, 1991 This completely second edition of The Longman Dictionary of the English Language is one of the largest most wide ranging single volume dictionaries available It is based on a unique analysis of millions of words as they are used in actual speech This dictionary achieves a balance of tradition and innovation with 220 000 definitions written in accessible language ensuring clarity precision and consistency More than 6 000 new words have been added to this unique compilation It features boxed mini essays providing the why for many definitions and points of usage Upwards of 1 000 notes explain the difference between synonyms as well as correct usage All new biographies and geographical references have been added along with thousands of fascinating word histories

The Mental Corpus John R. Taylor, 2012-05-04 This book presents a radical reconceptualization of the nature of linguistic knowledge John Taylor challenges the conventional notion that a language can be understood in terms of the interaction of syntax with a lexicon the second listing the words and the first the rules for combining them He proposes instead that an individual's knowledge of a language can be thought of as a repository of memories of linguistic experience Each encounter with the language he argues leaves a trace in our minds We record the forms of utterances the concepts and interpretations associated with them and the contexts in which they were heard or seen Features of incoming language a word a phrase a meaning a voice quality an interactional situation resonate with items already stored Similarities between stored items give rise to generalizations of varying degrees of certainty and precision which in turn are able to sanction new and innovative expressions John Taylor writes with conviction clarity and wit illustrating every stage of his argument with arresting examples His account makes a profound and original contribution to understanding the nature of language and the operations of the mind and brain His book will appeal in equal measure to linguists philosophers and cognitive scientists
