Taoist Yoga, Alchemy and Immortality Pi Ch'en Chao, K'uan Yü Lu, 1973 **The Alchemy of Sexual Energy** Mantak Chia, 2009-12-23 Taoist techniques for replenishing our internal energy with universal cosmic energy Shows how to transform excess sexual energy Ching Chi into self healing energy Presents advanced Cosmic Healing Chi Kung practices which gather the limitless resources of Cosmic Chi for healing Explains how opening of the three tan tiens to the six directions allows personal consciousness to connect directly to higher sources of energy Taoists consider our sexual energy to be the creative force that we can use to regenerate the body s internal energy but we must learn how to harness excess sexual energy and transform it into chi or life force energy When we circulate the sexual energy in the Microcosmic Orbit a continuous energy loop that runs up the spine and down the front of the body we transform it into self healing energy that can be stored in the organs and the three tan tiens energy centers in the brain the heart center and the lower abdomen The Alchemy of Sexual Energy builds upon Microcosmic Orbit practices discussed in Healing Light of the Tao The more we open the flow of our internal energy the more capable we are of connecting to the cosmic energy that exists outside ourselves in the universe By learning to open the three tan tiens to the six directions the Taoist practitioner combines mind power with extension of chi to draw cosmic energy into the body This energy too can be stored in the three tan tiens and used as needed for healing When we learn to flow in this way with the energy of the Tao life ceases to be a struggle

Lu K'uan Yü Charles Luk, 1970 **Brain States** Tom Kenyon MA, 2011-05-01 For the last year and a half I have worked on this manuscript at a feverish pace I would write on weekends late at night and sometimes sandwiched between clients I wrote parts at 30 000 feet on cross country plane flights My efforts were driven by a recognition that wherever I taught there was a general misunderstanding about altered states of awareness and that some of these errors were actually hindering people in their personal growth and in some cases posing serious dangers This book is a humble attempt to correct some of this misinformation and to give readers practical tools that they can use to access the mysterious beautiful and incredible treasures of their own inner worlds We are at a significant period in human history The

rate of discovery in the sciences outpaces our ability to keep up with the amount of information generated It is very telling that over the short course of eighteen months it took to write this book there were two significant discoveries in the brain sciences that necessitated my editing portions of the manuscript At no time in recorded history have we acquired so much knowledge in so short a time Knowledge is power But knowledge carries with it a shadow side For without wisdom to use that knowledge in life affirming ways we may very well destroy ourselves The ancient Chinese ideogram for transformation consists of two words danger and opportunity All transformations involve change whether it be the transformation of biochemistry into mind or the transformation of a society In the ever growing complex world in which we live we must transcend our old ways of viewing and doing things We must discover new ways to learn and to work This is as true on an economic level as it is on a personal one Those societies that educate themselves to be the most creative and motivated may well be those which flourish in the coming century And on a personal level access to our greater potential gifts us with new levels of fulfillment and success It is my experience that altered states of awareness can assist us to reach beyond our current views of ourselves and to discover a rich and powerful inner world The insights creativity and sensitivity born from our own inner exploration can help us to wrestle free opportunities for greater life and growth This is the value I see in learning how to access one's deeper consciousness And that is why I wrote this book Although we may never meet and although I can reach out to you only with words I trust and believe in your greatness For no matter where we are in our attainments we can always go further I hope the following pages entertain educate and enlighten you May they persuade you to take the Great Journey
