Designing Adult Services Ann Roberts, 2017-11-01. Focusing on adult patrons ages 19 through senior citizens, this book explains how libraries can best serve this portion of their community's population at different life stages and foster experiences that are worth the trip, whether actual or virtual. Adult library patrons are busier than ever before: working, taking classes, and studying for advanced degrees; caring for children; helping their aging parents; taking care of their homes or rental properties; planning and nurturing careers; managing investments and retirement funds; and inevitably retiring. Each of these endeavors can require highly specific learning and education. Throughout their lives, adults continue to have different information needs that the library and its services can fill.

Designing Adult Services: Strategies for Better Serving Your Community discusses the many ways libraries can serve adults of various ages and at different life stages, covering online services, collection development, programming, and lifelong learning. This guide's unique approach simplifies the processes of designing and carrying out a successful adult services program for adult library users in all the various stages of life. The book is organized by age groups with the respective information needs and life challenges. Each chapter suggests programs, services, and collection development strategies for the life stages. Public library administrators and managers, as well as adult services librarians in public libraries, will find this guide a must read.
