Maio, 2004-09-01 What is an attitude How do different research approaches characterise attitude and its applications in social psychology The Attitude concept has long formed an indispensable

construct in social psychology In this volume internationally renowned contributors review contemporary developments in research and theory to capture the current metamorphosis of this central concept This book draws together the latest developments in the field to provide a scholarly and accessible overview of the study of attitudes examining the implications for its position as a paradigm of social psychological understanding Dividing the subject into two main parts this book first addresses the structural and behavioural properties of attitudes including the affective cognitive structure of attitudes the nature of attitude ambivalence and intention behaviour relations The second section focuses on representational and transformational processes such as meta cognitive attitudinal processes the role of implicit and explicit attitudinal processes cultural influences and attitude change In a third concluding section the editors draw together these contemporary perspectives and elaborate on their impact for future theorising and research into attitudes Empirically supported throughout this collection represents a timely integration of the burgeoning range of approaches to attitude research It will be of interest to social psychologists sociologists political scientists and researchers with an interest in attitudinal phenomena

Mental Training for High School, and College Golfers Jim Kerley, 2011 The first thing to remember about this program it is not just a book but a complete course in mind training To take this course the person must have an open mind and a huge desire for success Without desire to be the best you can be in the game of golf this course is not for you This course teaches the basic principles over and over with exercises in every chapter This is not only a course but a players diary of their goals practice techniques on course mental goals during competition Every player that completes this course will automatically cut 8 to 10 strokes off their game It is a must you follow each chapter and the exercises for success This course will repeat until each player understands The course teaches a player who they really are controls anger develops honesty trust and confidence Why spend thousand of dollars on equipment and lessons before we train the mind first We are teaching backwards the principles of true golf Yes there are a lot of great golfers coming up but each one is understanding the mental side first starting with Tiger Woods at a very early age The competition is greater courses are longer and thousands of young golfers coming on the scene Why wait this is the first and only mental training complete course Remember this is not just a book Time to take charge of your game now Consider the price of a golf lesson This course is much more valuable at the same price You will not be disappointed
