There Was A Light then delves into Big Star's second and third albums while recounting Bell's second act as a struggling solo musician and born again Christian. During several trips to Europe he produced ambitious recordings and pitched himself to record labels even crossing paths with Paul McCartney. From this fertile era arose Bell's lone solo album the posthumously released I Am the Cosmos his swan song and masterpiece. There Was A Light details the pop culture phenomenon that made Big Star legendary and divulges how its staunch fanbase saved the band from obscurity. An encyclopedic compendium illuminating Bell's life from a thousand angles. Memphis Flyer.
