Quotations and Sources on Design and the Decorative Arts Paul Greenhalgh,1993 This book is part of a series which sets out to provide a forum for the work that is developing internationally in the field of design and material culture Placing everyday mass produced objects and decorative arts in their cultural artistic and historical context the series presents new sources and approaches to this subject in a concise form **The Modern Ideal** Paul Greenhalgh,2005-10

Over the last three centuries the world has been modernized From the first stirrings of industrialism to the definitive arrival of globalization artists craftspeople and designers have engaged with modernization in order to make sense of the transformations it continually imposes They have been by turns brutally critical and profoundly idealistic about the ongoing state of things The Modern Ideal explores the idea of modernity returning it to its historical context and showing how theory and practice in the modern visual arts emerged over three centuries Concepts which are central to the meaning of modernity are explained including style modernization progress ideology and universality and movements across all disciplines are

discussed from neoclassicism to postmodernism The rise of idealism in the modern visual arts is also explored the attempt to create a definitive positive style that was capable of transforming not only art but society as a whole became the obsessive quest of succeeding generations of artists architects and designers By dealing with issues at large in the contemporary art and design scene and by speculating about the next phase of modern practice the book identifies the collapse of idealism in the modern arts as being of central concern today **1000 New Designs 2 and Where to Find Them** Jennifer
