be taken for granted It requires conscious action across the organisation It is time to rethink assurance beyond its usual functional boundaries to focus on what matters to the business and how discussions in the board room can be better supported by more joined up assurance This book provides practical guidance for those who need that support as well as those who deliver assurance **Total Quality Management for Home Care** Elaine R. Davis,1994 Donna Peters a noted expert in outcomes and data management in home health care and Tad McKeon author of Home Health Financial Management team up to assess the current home health care environment in light of quality cost and data collection issues The most prevalent sources of data including outcomes measurement professional standards regulatory requirements consumer expectations care guidelines and activity based costing are examined The book addresses how one uses data to derive information that can be used to improve performance and examines how to use data to achieve excellence not just to satisfy regulators
