soap There are mainly two basic processes the Hot Process and Cold Process But before moving on to these two let s first discuss a very useful online tool that you can use in formulating the perfect soap recipes Soap making is a fun filled activity that anyone can enjoy The sense of accomplishment in producing something that is useful in everyday life can build one s self confidence and self esteem You can even add a personal touch in the soaps that you will make by adding some of your favourite oils and scents Natural soap has a greater advantage in terms of skin moisturizing than commercially manufactured soaps because of the ingredient glycerine that will be left in the soap In commercially manufactured soaps glycerine is filtered out of the soap and sold as a different product Glycerine is an ingredient that is responsible for retaining water in the skin leaving it soft and moisturized Homemade soaps can be used as gifts to your friends and relatives during the holidays Surely they will appreciate the effort you put into making the soaps as well as the skin health benefits they have These homemade soaps can be income generating as well for you can sell your nice smelling products in stores that support selling of natural and homemade goods or in the internet If you have always wanted to know how to make soap wanted to have the recipes that will eliminate those unhealthy products your using everyday on your body Then you need to act And act now stop using cancerous products that harm you and your family

Top Essential Oils To make essential oils it needs to be extracted from the plant This can be done through expression and distillation Expression also referred as cold pressing expression is method used to extract oils from citrus fruits like lime orange tangerine lemon and bergamot In the past expression doesn t require any sorts of tools except for a sponge After soaking the citrus rind or zest it will be pressed against the sponge repeatedly to absorb the oil The sponge will then be squeezed over a container to catch the oils and allow it to separate from its juices After a few hours the oils will be siphoned off and bottled A modern type of expression involves using a blender like device that s equipped with spikes Once the citrus zest rind or peel is placed into the device it will rotate and prod and prick the citrus until the oils are released Oil will be collected at the bottom of the device and bottled immediately
