The co editors have attempted to collect many articles essays in this volume of a not too technical sort by a representative collection of such individuals. Among their motivations is the wish to convince the reader of the incredibly prescient choice of his given name. The first section consists of three articles which have already appeared elsewhere by noted experts in the fields where the majority of Sol's contributions lie: mathematics, computer science, and electrical engineering. The second section consists of three articles by the co editors in memory of and tribute to Sol. The third section contains 25-30 articles by Sol's family, friends, students, colleagues, etc. They cover a great range of topics and vary widely in length, technicality, and other aspects. In the last section are contributions by Sol himself covering various aspects of his career and interests as well as other related material.
