

Exploring the anthology

Below is a selection of 'ideas' activities you could use when working from the Anthology.

A Passage to Africa

- Examine images of famine. Ask students to write down words to describe how they feel when they see such pictures.
- Start reading the passage from *A Passage to Africa*. Read to line 15 then discuss what the role of a journalist is in such a situation.
- Read to line 40 and discuss the use of senses in the piece. How do they make you feel? How is Alagiah playing with our expectations?
- Read to the end of the passage. Discuss how the situation and the smile invert expectations of journalists. Is the art of the observer valuable? Explain to the class that Alagiah brought the Somali famine to the attention of the rest of the world and won many awards for his work. Discuss the role of the modern media in major events.
- Ask students to write an essay answer to the following: How does George Alagiah capture a sense of the desperation and sadness of the Somali people?
- Pupils could work in pairs to produce an imaginary interview with George Alagiah about his experiences and then perform to the rest of the class.

Taking on the World

- Introduce Ellen MacArthur and her feats.
- Read and analyse the extract from *Taking on the World*. Focus on the way tension is created throughout the extract and the connotations of Christmas. Note the effect of sailing and boat terminology within the piece.
- Pupils should answer the following focus questions after reading *Taking on the World*.
 - 1) How does MacArthur create tension in the first three paragraphs of the extract?
 - 2) How does she show danger and her fear within the fourth paragraph?
 - 3) Within the fifth paragraph how does MacArthur show her desperation when the halyard is caught?
 - 4) What do the descriptions of the surroundings add to the piece?
 - 5) How does MacArthur portray the danger of her climb down the mast?
 - 6) How is the importance of the mission demonstrated in the last paragraph?
- In the last paragraph MacArthur mentions how she calls her friend Mark to tell him what's happened. Script the conversation that takes place between them as she describes her experience.

'Climate Change: The Facts'

- Discuss previous knowledge of climate change and associated issues.
- Read and analyse the article, focusing on the use of persuasive devices.
- Pupils to prepare a five minute speech on an issue they feel strongly about, using persuasive devices and perform to the class.

web mesoscopic physics is a subdiscipline of condensed matter physics that deals with materials of an intermediate size these materials range in size between the nanoscale for a quantity of atoms such as a molecule and of materials measuring micrometres 1 the lower limit can also be defined as being the size of individual atoms

web dec 8 2022 abstract nanomechanics has brought mesoscopic physics into the world of vibrations because nanomechanical systems are small fluctuations are significant the vibrations already become nonlinear for comparatively small amplitudes and new mechanisms of dissipation come into play
