

DNB Ophthalmology Solved Question Paper: Dec 2022 Paper 1

Q1. Discuss in detail the interventional modalities to halt progression of keratoconus. Discuss in detail the various refractive surgeries which can be done to provide visual rehabilitation in non- progressive keratoconus. [5+5]

Answer

The interventional modalities to halt progression of keratoconus are:

*** Collagen cross linking (CXL, C3R)-**

- Corneal collagen cross-linking (CXL) was first introduced by Wollensak et al. as a promising technique to slow or stop the progression of keratoconus.
- In CXL, riboflavin (vitamin B2) is administered in conjunction with ultraviolet A (UVA, 365 nm) which leads to the formation of reactive oxygen species, which ultimately leads to the formation of additional covalent bonds between collagen molecules, with consequent biomechanical stiffening of the cornea .
- CXL is followed using a standardized protocol (standard Dresden protocol), which involves epithelial removal, followed by dextran-based 0.1% riboflavin solution applied to the cornea for 20 min.
- The cornea is then exposed to a ultraviolet-A (UV-A) lamp, under an illumination intensity of 3 mW/cm² for 30 min, with a radiant exposure of 5.4 J/cm²

*** Accelerated Cross-linking-**

- Accelerated protocols have evolved in an attempt to overcome the limitations of conventional cross-linking (increased intraoperative time is a major drawback with standard Dresden protocol), while maintaining the efficacy of results.

The Ophthalmology Examinations Review Tien Yin Wong, 2011 With Contributions From Chelvin Sng National University Health System Singapore Laurence Lim Singapore National Eye Centre Singapore Many new treatments and diagnostic procedures in ophthalmology have been refined or newly developed during the past four years a new edition reflecting these changes is most timely The scope and aim of the book will be consistent with the first edition which provides a broad review of the specialist ophthalmology examinations for final year ophthalmology residents and trainees The book deals primarily with key facts and topics that are important from the examination perspective Only information and facts that are considered relevant and critical to the exams are covered with topics that may be of scientific interest but are not commonly tested in exams specifically left out Time challenged readers will also benefit from the knowledge acquired from various other sources or textbooks that are now organized and synthesized in this book While not meant to replace the standard textbooks enough information is contained within the book to serve as the main revision text nearer the exams The style and format of this book is intentionally didactic with questions and short answers The answer includes a model opening statement followed first by a classification system to aid organization of facts and then the core explanation in concise short notes Exam Tips are inserted to provide an insight into techniques of answering different types of questions and when appropriate a Clinical Approach section is also included In the new edition topics such as new understanding of disease mechanisms e.g. genetics of eye diseases new investigations e.g. OCT and novel procedures and treatment e.g. the use of antivascular endothelial growth factors new refractive surgical techniques are covered This book will be a valuable guide to the final year ophthalmology residents and trainees taking the specialist ophthalmology examinations particularly for exams with a strong oral or viva component Although primarily aimed at

candidates attempting the British postgraduate exams FRCS FRANZCO MRCS MRCOphth and FRCOphth it is also useful for other examination systems e g the American Boards Many junior residents in fact find the information handy during grand rounds

Update in General Medicine Related to Ophthalmology 313 Key Questions Answered Reza Gharebaghi ,Fatemeh Heidary ,Jamshid Roozbeh ,Hossein Jamali ,2016-06-24

Importance of study are exciting and rapidly advancing fields of medical science Our understanding of General Medicine has increased considerably over the last few decades Furthermore there is such an overwhelming body of knowledge that it is generally difficult to discern what is important to know in the General Medicine We have put together this book in order to assist the readers in the learning process This book may be useful for medical students ophthalmology residents practicing ophthalmologists nurses internal medicine and those who would like to practice on sample questions in General Medicine Our past experiences in International Council of Ophthalmology ICO exams as well as in MRCS FRCS examinations reveal that General Medicine are always very difficult for exam candidates Hence our attempt to bring together a comprehensive question bank in order to assist those candidates We have introduced a new format which is putting the answers below the questions therefore the readers can find the answers more easily Correct answers had been mentioned in bold as well as in detail explanation in order to assist the readers to find a more comprehensive review We hope that this approach makes the book more user friendly First section of the Basic and Clinical Science Course BCSC book series by American Academy of Ophthalmology AAO was used as the main reference As the educational requirements have grown learning processes have changed Each year an increasing number of our colleagues with limited time are required to obtain credential from the board in national and international examinations We strongly recommend that candidates review this book following their study of the basic and clinical textbooks

iNotes 2020 - Retina Dhaval Patel, When I compiled first edition of this iNotes Manual in 2014 It was simple collection of few notes very much incomplete which I prepared for my Post graduate Ophthalmology Exams at AIIMS New Delhi Since then I am regularly receiving emails and messages regarding usefulness of these notes as a study material for Post graduate students all across the world For last few years I am getting emails asking that if I am going to bring any updated version of my iNotes as ophthalmology has advanced a lot in last 10 years Hence from last one year I have started reading newer edition of books recent question papers gathered notes and presenting to you as completely new version as iNotes 2020 In this edition of iNotes I have tried to include clinical practical and surgical tips which is going to be used in your future practice also so that this manual can be a handy book for you as a future reference too Also Remember this is a Manual and not a Complete Book and Just like most of others it is also far from Complete One of the best way to utilise this for your exam preparation is to use this as a reference and make your personal manual by adding your own notes and topics asked in your university

The Ophthalmology Examinations Review Tien Yin Wong,2001 Latest Edition The Ophthalmology Examinations Review 3rd Edition This book is targeted at the final year ophthalmology resident taking the specialist ophthalmology exams and deals

primarily with key topics that are important from the examination viewpoint Only material that is considered relevant to the exams is covered The book will help the trainee or resident organize and synthesize knowledge acquired from various other sources or textbooks While not meant to replace the standard textbooks it contains enough information to serve as the main revision text nearer the exams The style of the book is didactic with questions and short answers The short answers are designed to be repetitive so as to enhance memory The answer includes a model opening statement followed usually by a classification system to aid organization of facts and then by the bulk of the answer in concise notes Exam Tips are inserted to provide insight into how to answer different types of questions and when appropriate a Clinical Approach section is also included Scattered within the text are hundreds of mnemonics to help the candidate in the final stages of preparation for the exams
