Dragonsinger Anne McCaffrey,Naomi Novik,2015-03-31 The planet Pern has been colonized for centuries by humans When humans first settled on this world they did not take notice of its sister planet which had an indigenous life form that attempted to land on Pern when it came within reach These silver threads fell in a destructive wave on the temperate lands of Pern once every 200 years destroying all life they encountered To combat this menace the inhabitants of Pern developed a species of dragon that could burn these threads out of the sky before they touched down Now centuries have passed between threadfalls and the danger of thread is considered a myth However a dragon rider named F lar knows that the riders are once again needed **The White Dragon** Anne McCaffrey,2002-02-26 NEW YORK TIMES BESTSELLER FINALIST FOR

Jacob, 2000-10-10 Keeping track of prolific authors who write fiction series was quite challenging for even the

most ardent fan until *To Be Continued* debuted in 1995. Now readers will be happy that the soon to be released second edition has added 1 600 new books and 400 new series. *To Be Continued* Second Edition maintains the first volume's successful formula that featured concise A to Z entries packed with useful information including titles, publishers, publication dates, genre categories, annotations, and subject terms. Among the genre categories that can be found in *To Be Continued* are romance, science fiction, crime, novel, horror, adventure, fantasy, humor, western, war, Christian fiction, and others. *The Chronicles of Pern* Anne McCaffrey, 1997-10-04. Once upon a time a long time ago, even before the classic novel *Dragonflight* was written, a story was published. It was called *Weyr Search* and it introduced to the world the incredible Dragonriders of Pern. Now Anne McCaffrey celebrates a quarter century of dragons and dragonriders as she returns to the form that started it all: the first ever Pern short story collection. Let the queen of dragons herself take you back to the earliest days of Pernese history as she brings to life events that shaped one of the most popular worlds in all of science fiction. Join the original survey team as they explore Pern and decide to recommend it for colonization. Share the terror of the evacuation from the Southern Continent as a flotilla of ships, aided by intelligent talking dolphins, braves the dreadful currents of the Pernese ocean. Learn how the famous Ruatha Hold was founded and thrill with the dragonriders as they expand into a second, then a third Weyr. And discover a secret lost in time: the rescue of some of the original colonists before the planet was cut off forever. Building a new life on a distant world, braving the dreaded Thread that falls like silver rain from the sky only to destroy every living thing it touches, flying heroically on the wondrous dragons. *The Dragonriders of Pern* **Science Fiction and Fantasy Literature, 1975-1991** R. Reginald, Mary Wickizer Burgess, Daryl Furumi Mallett, 1992. Science fiction constitutes one of the largest and most widely read genres in literature, and this reference provides bibliographical data on some 20 000 science fiction, fantasy, and horror fiction books, as well as nonfiction monographs about the literature. A companion to Reginald's *Science Fiction and Fantasy Literature 1700-1974* (Gale, 1979), the present volume is alphabetically arranged by approximately 10 000 author names. The entry for each individual work includes title, publisher, date, and place published, number of pages, hardbound or paperback format, and type of book (novel, anthology, etc.). Where appropriate, entries also provide translation notes, series information, pseudonyms, and remarks on special features such as celebrity introductions. Includes indexes of titles, series, awards, and doubles for locating volumes containing two novels.
