Drupal 8 will quickly become the new standard for deploying content to both the web and mobile applications. However with so many new changes it can quickly become overwhelming knowing where to start and how to quickly start. Starting from the bottom up we will install, set up and configure Drupal 8. We'll navigate the Admin interface so you can learn how to work with core themes and create new custom block layouts. Walk through a real world project to create a Twig theme from concept to completion while adopting best practices to implement CSS frameworks and JavaScript libraries. We will see just how quick and easy it is to create beautiful responsive Drupal 8 websites while avoiding the common mistakes that many front end developers make. Style and approach: Drupal 8 Theming with Twig is intended for front end developers, designers and anyone who is generally interested in learning all the new features of Drupal 8 theming. Discover what has changed from Drupal 7 to Drupal 8 and immerse yourself in the new Twig PHP templating engine. Familiarity with HTML5, CSS3, JavaScript and the Drupal Admin interface would be helpful. Prior experience with setting up and configuring a standalone development environment is required as we will be working with PHP and MySQL.

Drupal's Building Blocks Earl Miles, Lynette Miles, 2010-12-22. Even if you're already a seasoned Drupal user of CCK, Views or Panels I've no doubt that this book will provide you with several new techniques and methods for getting the most out of these extremely essential modules. It certainly has for me. Dries Buytaert, founder and project lead of Drupal and CTO of Acquia. With Drupal Web professionals can create full featured Web sites with just a few clicks. Drupal's core is compact and well documented but much of Drupal's immense power lies elsewhere in external modules. Drupal's Building Blocks is an authoritative tutorial, reference and cookbook for Drupal's most valuable modules. The authors are Drupal insiders who've spent years creating and supporting these modules. Earl Miles, developer of the Views and Panels modules and Lynette Miles, Drupal documentation team member. They've brought together indispensable information you won't find anywhere else as well as extensive sample recipe code designed for easy adaptation and reuse. Learn how to Use Content Construction Kit (CCK) to customize your data input forms around your needs. Improve site flexibility with Drupal's node system. Add optional field types including PHP based fields. Customize themes to display data more attractively and legibly. Build powerful Views query displays. Integrate with SQL databases. Customize Views with relationships, arguments and filters. Optimize query performance. Add custom styles with the Panels module. Maintain full control over sites as you deploy into production. This book will help you create more powerful, flexible, usable and manageable Web sites whether you're a Web developer, designer, administrator, architect or consultant. The accompanying Web site contains all examples, code and themes presented in this book.

Creating Digital Exhibits for Cultural Institutions Emily Marsh, 2023-03-28. Creating Digital Exhibits for Cultural Institutions will show you how to create digital exhibits and experiences for your users that will be informative, accessible and engaging. Illustrated with real world examples of digital exhibits from a range of GLAMs, the book addresses the many analytical aspects and practical considerations involved in the creation of such exhibits. It will support you as you go about analyzing content to find hidden

themes applying principles from the museum exhibit literature placing your content within internal and external information ecosystems selecting exhibit software and finding ways to recognize and use your own creativity Demonstrating that an exhibit provides a useful and creative connecting point where your content your organization and your audience can meet the book also demonstrates that such exhibits can provide a way to revisit difficult and painful material in a way that includes frank and enlightened analyses of issues such as racism colonialism sexism class and LGBTQI issues Creating Digital Exhibits for Cultural Institutions is an essential resource for librarians archivists and other cultural heritage professionals who want to promote their institution s digital content to the widest possible audience Academics and students working in the fields of library and information science museum studies and digital humanities will also find much to interest them within the pages of this book
