Handbook of Research on Training Teachers for Bilingual Education in Primary Schools Estrada Chichón, José Luis, Zayas Martínez, Francisco, 2023-02-06 Modern societies tend to demand innovative learning modalities in which foreign languages are used to teach content subjects from very early educational stages Education authorities in different geographical areas of the world are currently working to determine how bilingual teaching should be developed depending along with many other factors on the initial training of bilingual education teachers On this basis it is necessary to review how tertiary education institutions deal with the theoretical foundations and practical approaches necessary for this learning modality to train bilingual education teachers for primary schools The Handbook of Research on Training Teachers for Bilingual Education in Primary Schools includes international experiences of teacher training for bilingual education in primary schools in which educators should be able to recognize themselves and identify concrete working formulas to apply in their daily work Covering key topics such as teacher training language learning and primary education this reference work is ideal for administrators teacher trainers policymakers researchers scholars practitioners academicians instructors and students

A Journey through the Content and Language Integrated Learning Landscape Carmel Mary Coonan, Luciana Favaro, Marcella Menegale, 2017-11-06 Interest in Content and Language Integrated Learning CLIL in Europe and beyond has increased exponentially since it first appeared on the scene in Europe in the early 1990s CLIL has grown to become a much discussed topic of language education today with the number of publications pertaining to the field continuing to increase Researchers teachers teacher trainers course planners and others involved in CLIL are constantly searching for new studies to help them

understand how CLIL is evolving and how best it can be implemented As the concept is now informing the pedagogical principles of different educational realities research and reflection are now required to further understand its potential and implications its inherent difficulties and possible applications This volume was conceived with this idea in mind The book primarily covers three macro areas learning teaching and training It provides insight into the latest areas of research and reflection that are characterizing the CLIL field in the current decade The wide range of topics covered reveal for example a shift in interest towards CLIL at the tertiary level focusing on lecturer and student perceptions and problems

Assessing Language Teachers' Professional Skills and Knowledge Rosemary Wilson, Monica Poulter, 2015-01-31 The growth in English language teaching worldwide and the related increase in teacher training programmes of all kinds highlight the need for greater accountability in the assessment of teachers The need for formal summative assessment has taken on greater importance in training programmes and requires procedures which do not always sit easily with the development process while transparency of assessment procedures is also increasingly demanded by the candidates themselves This edited volume discusses key issues in assessing language teachers professional skills and knowledge and provides case study illustrations of how teacher knowledge and teaching skills are assessed at pre service and in service levels within the framework of the Cambridge English Teaching Qualifications The volume provides discussion of ways in which the changing nature of English language teaching has impacted on teacher education and assessment examples of specific assessment procedures for both teaching knowledge and practical classroom skills accounts of the ways in which the Cambridge English Teaching Qualifications have been integrated into and adapted for local contexts This is the first volume of its kind wholly dedicated to language teacher assessment and as such will be of interest to language teachers and teacher educators as well as to researchers and postgraduate students

education The volume will be of interest to students and scholars in bilingual and second language education bilingual teacher education CLIL as well as educators and stakeholders in bilingual CLIL and English teacher education degree programs

Content and Language Integrated Learning. An Exemplary Lesson Plan, 2024-04-18 Seminar paper from the year 2018 in the subject Didactics English grade 2 0 University of G ttingen language English abstract This paper is dedicated to the concept of CLIL Content and Language Integrated Learning In order to get a good impression of what this means the first chapter will introduce the concepts and theory of CLIL and explain why it should be used In the following chapters I will present a lesson I have developed about the structure of North American cities In this lesson the learners will draw their own map of Rochester NY guided by a step by step instruction and finally I will reflect the lesson and evaluate it It becomes indisputably more important to be able to speak more than one language as the world is constantly growing together This raises the question what ways there are to obtain the skill to speak another language apart from the native language The appendix includes the complete material for the lesson including worksheets and everything else that was used as well as the lesson plan

A School Garden Project. A Planned CLIL Unit Jennifer Müller, 2023-05-15 Lesson Plan from the year 2022 in the subject Didactics for the subject English Miscellaneous grade 1 3 Martin Luther University Institut f r Schulp dagogik und Grundschuldidaktik course Content and Language Integrated Learning in the Classroom language English abstract One of the main characteristics of CLIL is that students learn about content e g science ethics or physical education and through an additional language other than their mother tongue When it comes to evaluate the potential of CLIL the pros and also the challenges of teaching content and language at the same time have to be considered Therefore it should also be differentiated that there are differences between Hard CLIL and Soft CLIL Hard CLIL focuses on the main goal of acquisition of subject knowledge It is taught by a teacher of this specific subject who has to follow the curriculum Other than that Soft CLIL puts emphasis on language benefits and takes up parts of the curriculum of a subject only There the teacher of a foreign language holds the lesson or units During our seminar we focused on Soft CLIL but there is still a lack of already prepared and tested material for both types of CLIL The choice of which CLIL is implemented often depends on several factors like teacher availability amount of time the capacity to implement CLIL in general networking etc 13 It is obvious that there has to be thoughtful planning before implementing CLIL in schools But not only before implementing CLIL in the classrooms but also while preparing specific units there has to be thoughtful planning as well because there is a lot to convey in CLIL lessons e g the vocabulary and basic skills like reading listening writing speaking as well as the subject content To plan a good lesson the teacher has to be and has to prepare much material using e g scaffolding and glossaries This fact can cause time problems for the teacher Apart from that a challenging factor could be the overload of subject input Some students struggle with language issues and therefore could have problems to process the content in the appropriate depth That makes it necessary to very closely supervise the process but this depending on the number of students can sometimes

be quite challenging The teacher has to provide a range of necessary vocabulary with subject terminology to make sure the students are able to follow the content
