Game Changer Fergus Connolly, Phil White, 2017-09-05 Team sports like football basketball soccer and rugby are hugely popular the world over on both college and professional levels and such popularity means that they are big business Very big Broadcasting rights alone bring in billions ESPN paid 5 6 billion to broadcast college football playoffs for twelve years Turner Sports CBS shelled out 10 4 billion to show the national college basketball tournament

through 2024 and the most recent NBA TV deal came in at a cool 26.4 billion. As the rewards for winning have increased, it's no surprise that sports team budgets have followed suit. Sure, the athletic program at the University of Texas brought in 161 million last year, but the Longhorns also spent 154 million over the same period. Fifteen other college athletics programs also racked up over 100 million in annual expenses. But that's child's play compared to the outgoings at the world's most valuable soccer team, Manchester United, which spent more than 500 million in 2015. The trouble is that all this spending often fails to yield better results. Teams in all sports have tried just about every gimmick to hack their way to better performance. But as they've gotten stuck in stats, mired in backroom politics, and diverted by the facilities arms race, many have lost sight of what should've been their primary focus all along: the game itself. In *Game Changer*, Fergus Connolly shows how to improve performance with evidence-based analysis and athlete-focused training. Through his unprecedented experiences with teams in professional football, basketball, rugby, soccer, Aussie Rules, and Gaelic football, as well as with elite military units, Connolly has discovered how to break down the common elements in all sports to their basic components so that each moment of any game can be better analyzed, whether you're a player or a coach. The lessons of game day then can be used to create valuable learning experiences in training, evaluate the quality of your team's performance, and home in on what's working and what isn't. *Game Changer* also shows you how to expand training focus from players' physical qualities to advance athletes technically, tactically, and psychologically. Connolly's TTPP Model not only helps players continually progress but also stops treating them like a disposable commodity and instead prioritizes athlete health. Bringing together the latest evidence-based practices and lessons from business, psychology, biology, and many other fields, *Game Changer* is the first book of its kind that helps coaches, athletes, and casual fans create a cohesive game plan that improves performance through defined objectives, strategies, and tactics. Put statistical analysis and technology into context so teams can bypass the hype and get meaningful results. Identify dominant qualities to maximize during training and limiting factors to improve. Create realistic, immersive learning experiences for individual players and the entire team that deliver defined outcomes. Structure player development with a new holistic model that puts athlete health first and helps reduce the chance of injury and burnout. Balance training load so that all players are fresh and ready to play at their best in competition. Rethink coaching and organizational leadership and enhance communication, group dynamics, and player interaction. Create a winning team culture.

The Pop-up Gym Jon Denoris, 2014-05-08. How to keep fit wherever you are: an exercise programme for the busiest people. Fitness trainer to a host of busy people, including actors, TV presenters, and politicians, Jon Denoris has created a series of exercises and routines, most of which can be carried out almost anywhere: in the home, at work, or outdoors. Hardly any of them require any equipment. Dumbbells and a medicine ball will come in useful for a few of the exercises, and also a stability ball, but that is all. So the exercises can even be done on holiday and can be adapted to work with standard equipment. Hence the title *The Pop-up Gym*. How to Keep Fit Wherever You Are. An easy-to-use, stylish package for people who want to be fit with the minimum of fuss.

Suitable for readers who don't have time to go to a gym don't want to spend a lot of money on equipment and have limited time
