Second Thoughts Janet M. Ruane, Karen A. Cerulo, 2019-06-06 Is it true that numbers don't lie Is America the land of equal opportunity Is marriage a dying institution Each of the 23 essays in Second Thoughts reviews a familiar conventional wisdom and introduces relevant sociological concepts and theories in order to explain, qualify and sometimes debunk that conventional wisdom Crowdfunding: The Story of People Irfan Bashir, Ravina Banze, 2020-12-25 If we can acknowledge that our fate is connected with the fate of others and that of the collective world then we must ask ourselves how we can improve the world within our capacity How do we progress while ensuring the socio-economic and emotional wellbeing of others One of the answers is through Crowdfunding Crowdfunding: The Story of People uses a data-driven storytelling approach to capture the impact and potential of crowdfunding in a world governed by inequality It does so while maintaining a constant grip on both the micro and macro perspectives of collective giving social collaboration and financial inclusion As people we see life from a shared prism but how we interpret it often varies All of us have a unique way of deriving meaning from the stories around us We all share an inherent tendency to look at something small and connect it with larger patterns It is how we make sense of our world through connections patterns and shared interpretations By stitching together stories and data from around the world the authors have successfully mapped the crowdfunding universe in a lucid and riveting manner The authors flip through the pages of history to shed light on people's collective efforts and diverse fundraising techniques that have evolved into modern-day crowdfunding They explore the current industry trends of crowdfunding the challenges it faces and piece together the potential solutions to those problems **The SAGE Handbook of Cultural Sociology** David Inglis, Anna-Mari Almila, 2016-05-09 Cultural sociology or the sociology of culture has grown from a minority interest in the 1970s to become one of the largest and most vibrant areas within sociology globally In The SAGE Handbook of Cultural Sociology a global range of experts explore the theory methodology and innovations that make up this ever-expanding field The Handbook's 40 original chapters have been organised into five thematic sections Theoretical Paradigms Major Methodological Perspectives Domains of Inquiry Cultural Sociology in Contexts Cultural Sociology and Other Analytical Approaches Both comprehensive and current The SAGE Handbook of Cultural Sociology will be an essential reference tool for both advanced students and scholars across sociology cultural studies and media studies Gods in the

Global Village Lester R. Kurtz, 2012 In an era plagued by religious conflict the Third Edition of Gods in the Global Village directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time **Juvenile**

Dreams of a Lifetime Karen A. Cerulo, Janet M. Ruane, 2022-06-21 How social status shapes our dreams of the future and inhibits the lives we envision for ourselves Most of us understand that a person's place in society can close doors to opportunity but anything is possible when we dream about what might be or so we think Dreams of a Lifetime reveals that what and how we dream and whether we believe our dreams can actually come true are tied to our social class gender race age and life events Karen Cerulo and Janet Ruane argue that our social location shapes the seemingly private and unique life of our minds We are all free to dream about possibilities but not all dreamers are equal Cerulo and Ruane show how our social position ingrains itself on our mind's eye quietly influencing the nature of our dreams whether we embrace dreaming or dream at all and whether we believe that our dreams from the attainable to the improbable can become realities They explore how inequalities stemming from social disadvantages pattern our dreams for ourselves and how sociocultural disparities in how we dream exacerbate social inequalities and limit the life paths we believe are open to us Drawing on a wealth of original interviews with people from diverse social backgrounds Dreams of a Lifetime demonstrates how the study of our dreams can provide new avenues for understanding and combatting inequality including inequalities that precede action or outcome

Comninel, 2018-08-18 This book considers Karl Marx s ideas in relation to the social and political context in which he lived and wrote It emphasizes both the continuity of his commitment to the cause of full human emancipation and the role of his critique of political economy in conceiving history to be the history of class struggles The book follows his developing ideas from before he encountered political economy through the politics of 1848 and the Bonapartist farce the maturation of the critique of political economy in the Grundrisse and Capital and his engagement with the politics of the First International and the legacy of the Paris Commune Notwithstanding errors in historical judgment largely reflecting the influence of dominant liberal historiography Marx laid the foundations for a new social theory premised upon the historical consequences of alienation and the potential for human freedom
