

Teacher self-evaluation questionnaire

Part 1: Use of the target language by the teacher

Consider your use of the target language in the light of the following statements and respond 'Routinely', 'Sometimes, if I can', or 'Not usually'.

		Routinely	Sometimes, if I can	Not usually
1	I use the target language to present new language in the lesson.			
2	I give classroom instructions in the target language and students respond appropriately.			
3	I give oral feedback (praise/correction) in the target language.			
4	I use the target language to present new grammar.			
5	I plan my classroom talk in advance, deciding whether to use English or the target language and thinking through how to communicate my meaning effectively (in either language).			
6	I deliberately avoid 'sandwiching' (translating myself) in my classroom talk.			
7	I deliberately use a range of strategies to make my use of the target language accessible to learners, including giving target language examples, simplifying, giving synonyms, using visuals, miming and drawing.			
8	I check constantly with learners to monitor their understanding of my target language.			
9	I take care in my target language use to provide a consistently accurate and fluent model of the target language, with vocabulary, structures and pace of delivery designed to allow learners to emulate it.			
10	I make it very clear to learners that I value spontaneous use of the target language by students: for example, by welcoming and praising their contributions, by rewarding good target language use, etc.			
11	I teach students classroom interaction language and give them opportunities to use it.			
12	I expect students to respond to me in the target language and they do.			
13	I create opportunities for learners to talk spontaneously to each other in the target language.			
14	I plan target language tasks which require learners to use the target language in an unplanned way, reacting to unpredictable elements in conversations.			
15	I use English for work on exam strategies.
