Academic Achievement and Self-efficacy Among Diverse Populations Walter Scott Roberts (III.), 2014

ABSTRACT The purpose of this study was to investigate the relationship between self efficacy and academic achievement for Hispanic Black and White students Self efficacy has been studied immensely related to performance and academic achievement However little focus has been placed on general academic achievement across the curriculum In this quantitative study the researcher sought to establish a correlation between academic achievement and self efficacy across racial gender and socioeconomic lines using non probabilistic sampling techniques and surveying Self efficacy was studied in the context of Bandura's and other self efficacy scholars theories and measured using the Morgan Jinks Student Efficacy Scale The results suggested a strong correlational relationship between self efficacy and academic achievement for Hispanic Black and White participants Analysis failed to produce significant results related to the relationship between gender socioeconomic status and self efficacy Additionally no significant differences were found in the proportion of low achieving and low self efficacy students across the three racial groups Results from this study may provide specific information to help teachers work with low achieving and low self efficacy students to increase academic achievement This study will hopefully inspire future studies to implement strategies aimed at increasing self efficacy and academic achievement as well studies incorporating other demographic groups

Using Self-Efficacy for Improving Retention and Success of Diverse Student Populations Herron, Jeffrey, 2022-10-14

Despite the many strides that have been made in diversity equity and inclusion many educational systems across the world continue to struggle with equality in education for all students regardless of race gender or socioeconomic status This struggle within education inevitably negatively impacts society as only select groups are given the opportunity to excel It is essential for school systems to be proactive when dealing with student learning outcomes and student retention for all student populations Using *Self Efficacy for Improving Retention and Success of Diverse Student Populations* discusses the best practices in supporting students during their educational journey and examines the current efforts to improve student retention Covering topics such as computing education academic counseling and student success prediction this premier reference source is an excellent resource for faculty and administrators of both K 12 and higher education pre service teachers teacher educators school counselors sociologists librarians researchers and academicians *Relationship of Self-esteem and Self-efficacy to Academic Performance and Persistence of Nontraditional Students* Fatima Hopson Jones,2006 ***Airport traffic, Juliana Airport at Sint Maarten from 1958 until 1980*** ,1981* **Academic Self-efficacy and Academic Achievement in High School Students** Suzanne Marie Morin,1988 *The Factors Effecting Student Achievement* Engin Karadağ,2017-05-14 This book focuses on the effect of psychological social and demographic variables on student achievement and summarizes the current research findings in the field It addresses the need for inclusive and interpretive studies in the field in order to interpret student achievement literature and suggests new pathways for further studies Appropriately a meta analysis approach is used by the contributors to show the big picture to the researchers by analyzing and combining the findings from different independent studies In particular the authors compile various studies examining the relationship between student achievement and 21 psychological social and demographic variables separately The philosophy behind this book is to direct future research and practices rather than addressing the limits of current studies ***Motivation and Learning Strategies for College Success*** Myron H.
