What Is Contemporary Art? Terry Smith, 2012-08-10 Who gets to say what counts as contemporary art Artists critics curators gallerists auctioneers collectors or the public Revealing how all of these groups have shaped today's multifaceted definition Terry Smith brilliantly shows that an historical approach offers the best answer to the question What is Contemporary Art Smith argues that the most recognizable kind is characterized by a return to mainstream modernism in the work of such artists as Richard Serra and Gerhard Richter as well as the retro sensationalism of figures like Damien Hirst and Takashi Murakami At the same time Smith reveals postcolonial artists are engaged in a different kind of practice one that builds on local concerns and tackles questions of identity history and globalization A younger generation embodies yet a third approach to contemporaneity by investigating time place mediation and ethics through small scale closely connective art making Inviting readers into these diverse yet overlapping art worlds Smith offers a behind the scenes introduction to the institutions the personalities the biennials and of course the works that together are defining the contemporary The resulting map of where art is now illuminates not only where it has been but also where it is going

Birth and Death in British Culture Anette Pankratz, Claus-Ulrich Viol, Ariane de Waal, 2012-04-25 Why discuss birth and death when they lie outside discourse And why look at them together when they are so much unlike each other one the moment of fresh beginnings joys and the relative certainties of existence the other the moment of life's end grief and the relative uncertainties of non existence Because it turns out that both events while virtually unrepresentable have spawned a host of representations narratives rites and attempts at making sense of them and because they may have more similarities than appears at first sight The 13 interdisciplinary articles collected in this volume prove that looking at the two phenomena in tandem throws into sharp relief the distinct patterns and functions of each while also highlighting some of the fundamental historical developments cultural functions and socio political issues shared by both The contributions take stock of the discourses of birth and death prevalent in British and Western culture probing into the way the two phenomena have been subjected to strategies of medialisation commodification and bio politics
