The Recovery Myth Lucy Easthope, 2018-05-26 This book provides an innovative re examination of the recovery phase of a disaster by one of the UK's most experienced disaster management specialists Drawing on two decades of work the book develops an ethnography of the residents and responders in one flooded village and applies this to other cases of UK flooding as well as to post disaster recovery in New Zealand The book shows how localised emergency responders find ways to collaborate with residents and how an informal network uses nationally generated instruments differently to co produce regeneration within a community

The book considers the plethora of government instruments which have been produced to affect recovery including checklists templates and guidance documents and discusses approaches to community resilience and recovery risk management The book appeals to students and scholars of Government and Public Policy Disaster and Emergency Management Community Resilience Law Sociology and Geography **Department of State News Letter** United States.
