Secrets of German Medieval Swordsmanship Sigmund Ringeck, Johann Liechtenauer, 2001 Medieval Fighting with the German Masters Christian Henry Tobler presents a beautifully interpreted study of fighting techniques recorded in the mnemonic verse of the legendary German swordmaster Johannes Liechtenauer Johannes Liechtenauer was a 14th century German fencing master born in the mid 1300s Some of Liechtenauer s teachings were preserved in rhyming couplets possibly done so to prevent the uninitiated from learning the techniques he presented Christian presents his interpretation in a style that is readable translating the original and then providing a practical interpretation of each technique At once bold and martially efficient these classic techniques of swordsmanship have proven their enduring allure In this second reissue of a classic work Chivalry Bookshelf offers students of martial arts of martial culture during the middle ages fencing historians reenactors and students of medieval history

Lance, Spear, Sword, and Messer Christian Henry Tobler, 2022-03-31 The 14th century a paradoxical time of world shattering plague the Hundred Years War the Peasants Revolt but also literary and artistic innovation formed the basis of the Renaissance In the later years of this turbulent time a shadowy figure named Johannes Liechtenauer systematized lessons for swordsmanship wrestling armoured and mounted combat Recorded in cryptic rhyming verses it fell to masters of the 15th and 16th century to record clarify and expand the grandmaster s instructions in an extensive body of fencing manuals As the world of the knight receded into history these texts many extensively and beautifully illustrated were forgotten by all but German language antiquarians and fencing historians until the last decade of the 20th century when they were rediscovered by a new audience of martial artists and historians In Lance Spear Sword and Messer Christian Tobler makes a deep dive into these fighting traditions creating a rich anthology that has extensive instructional material on topics as diverse as the two handed sword spear poleaxe wrestling and the use of long shields combined with thought provoking analysis and historical commentary that will occupy the mind and challenge the preconceptions of long time students of medieval German martial arts Finally the martial career in arms and in the literature of arms of the famed Emperor Maximillian I often called the Last Knight who was himself a devoted student of the tradition serves as a capstone of this

collection much as his literary output including a planned but unwritten fight book did in his own lifetime at the waning of the Middle Ages and start of the Northern Renaissance

The Fighting Man's Guide to German Longsword Combat Michael G. Thomas, 2008

[The Art of Longsword Fighting](#) Benjamin J. Smith, 2021-09-30

The teaching of Historical European Martial Arts has widespread appeal with numerous clubs in many countries. However, comparatively few people who run their own club have qualifications that would make them an instructor in traditional martial arts organizations. Even those with such qualifications lack in depth cohesive resources for teaching a given style often because they can only work from incomplete sources. Thus the need for a book which is grounded in exhaustive research into historical teaching methods and in particular focusing on the specific style of Sigmund Ringeck who was himself a teacher of fighting arts in the late 14th century or the early or mid 15th century. In *The Art of Longsword Fighting* Benjamin J. Smith therefore offers the broader information necessary for teachers of historical swordsmanship to deliver courses based on original authentic techniques. This includes the various cutting methods, the role of competition in learning these arts, the mechanics of the interpretive process and insights into how to use a wide range of activities to enhance students' experience. All of this is achieved through a panoply of photographs showing each move along with explanatory diagrams as well as detailing how and when to introduce each next step in a manner that is faithful to Ringeck's style. There is no current literature available which demonstrates how each move should be undertaken and most importantly why each step should be taken in the sequences described. There is no doubt that a book of this nature has been long awaited and will be welcomed by instructors and students alike as well as those general readers interested in fencing and the longsword of the Renaissance period.

Fiore dei Liberi's Armizare Robert N. Charrette, 2011-12-31 Armizare the Art of Arms was the name the warriors of medieval Italy gave to their martial art which included the wielding of sword axe and spear with wrestling knife fighting and mounted combat In the waning years of the 14th century Fiore dei Liberi was a famed master of this art whose students included some of the most renowned and dangerous fighting men of his day Toward the end of his life Master Fiore preserved his teachings in a series of illustrated manuscripts four of which have survived to the present day and have become the basis of a world wide effort to reconstruct this lost martial art However because medieval books were written for an audience with different expectations than the modern readers how to manuals today's students often have trouble understanding the old swordsman's choices in including omitting or organizing information as he did They may see that fighting art was a system but lack the background to see the systematic instruction of the book itself In Armizare *The Chivalric Martial Arts System of il Fior di Battaglia* Robert Charrette brings together his experiences as a martial artist and respected 14th century living historian with his skills as a professional author graphic artist to not only take readers on a walking tour of Master Fiore's manuscripts but into the mindset behind its creation More than just an interpretation of an old book's contents this is a tool kit that reveals Fiore dei Liberi's brilliance as not just a fighter but as martial arts teacher Whether a long time student a newcomer to the art or a more academic devotee of the medieval warrior and his craft readers will find themselves educated and entertained as a door is opened into another time and place the training hall of the medieval knight *Codex Wallerstein* Grzegorz Żabiński, Bartłomiej Walczak, 2002 The *Codex Wallerstein* is one of the best known of the late medieval fencing treatises still in existence Though perhaps not as widely known as Talhoffer 1467 or Flos

Duellatorum it is just as important to students of the Western martial arts Originally written in Middle High German during the late 14th and early 15th centuries the Codex Wallerstein has long been available to scholars in microfilm format from Augsburg University Now with the publication of this book the text and drawings are available to scholars and martial artists in the original Middle High German as well as in Modern German and English translations The translations were provided by Grzegorz Zabinski with assistance from Bartłomiej Walczak two of the most esteemed interpreters of medieval combat in the world The codex offers a series of fundamental counters to common attacks using the longsword falchion and dagger as well as the complete system of wrestling techniques In this work the reader will find a great deal of instruction on thrusting at or closing in against an opponent expanding Master Johannes Liechtenauer s art of longsword combat For martial artists medievalists historians or anyone
