

The background of the book cover is a high-magnification, false-color micrograph of a silicon microchip die. The die is rectangular and densely packed with intricate circuit patterns. Various functional blocks are highlighted in different colors: large green rectangular areas, red rectangular blocks, and purple/pinkish regions. A complex network of fine lines, representing interconnects, crisscrosses the entire surface. Several bright, intersecting lines in cyan, magenta, and red are overlaid on the die image, creating a sense of depth and highlighting specific circuit paths or design features.
