

# HOW DOES COGNITIVE DEVELOPMENT HAPPEN?

Cognitive development begins in infancy and continues through childhood, adolescence, and adulthood. It happens when we begin to interact with our environment. We learn by observing what others do and then imitating them. Using our senses, we acquire information about the world around us and develop our memory by storing that information. We develop new skills by practicing techniques repeatedly until they become second nature.

We develop personality and leadership skills in pre-schoolers, kids, teenagers and adults. Visit - [sanjeevdatta.com](http://sanjeevdatta.com)
