Adolescents in the Internet Age Paris S. Strom, Robert D. Strom, 2009-07-01 The tools of communication technology have transformed socialization and education of adolescents They are the first generation to be growing up with the Internet cell phones iPods computers electronic hand helds and satellite television Building friendships and social networks are common experiences online Most teenagers prefer the Internet as the main source of learning Because students know things that are unknown to teachers their traditional relationship can shift to provide greater benefit for both parties if they pursue reciprocal learning This book introduces a new set of core topics to reflect current conditions of the adolescent environment instead of life in yesterday s world The discussion shows how the Internet can be used to practice skills needed for learning and working in the future Visual intelligence and media literacy are essential for critical thinking Creative thinking should be encouraged in classrooms and become a more common outcome of schooling Social maturity can improve when networking includes interaction with adults as well as peers Prevention of cheating and cyber abuse presents unprecedented challenges Understanding sexuality nutrition exercise and stress contribute to a healthy lifestyle Teamwork skills peer evaluation and exercises for cooperative learning groups are presented Classroom applications address the practical concerns of teachers The book is organized in four domains of identity cognitive social and health expectations Each chapter includes student polls to assess conditions of learning and websites that augment the book content The target audience is prospective teachers in service teachers and school administrators studying adolescent development on campus and by distance learning

Thinking in Childhood and Adolescence Paris S. Strom, Robert D. Strom, 2013-09-01 Until recently educators were expected to provide all the knowledge students would need to ensure their future However the Internet has altered conditions of learning in ways that motivate students to be more self directed and less dependent on direct instruction Neuroscience discoveries about brain functioning also urge schools to adopt thinking as an aspect of core curriculum Students who acquire thinking skills needed to locate information process and organize data generate creative and practical ideas communicate with all age groups and collaborate can adapt to technology change and social evolution Encouraging adolescents to choose some goals they pursue respects their need for autonomy Recognizing the need to amend certain goals is important so a person knows when change in personal direction is warranted Exploring careers in a low risk setting motivates realistic aspirations and helps students to shape their future Employer expectations for teamwork require attention Performing well in groups including peer and self evaluation yields productive thinking and is conducive to mental health The intended audience for this book is college students preparing to become teachers in preschool elementary or secondary education The book describes ways schools and families can support higher order thinking during childhood and adolescence Learning that occurs outside school is ignored by tests that reflect only classroom lessons New instruments that measure

thinking are needed to enable transformation of school goals and evaluation of student progress Shifting to a dual emphasis on thinking and learning is a challenge for teachers of all grade levels

Antiheroines of Contemporary Media Melanie Haas,N. A. Pierce,Gretchen Busl,2020-12-02 This volume of essays provides a critical foray into the methods used to construct narratives which foreground antiheroines a trope which has become increasingly popular within literary media film and television Antiheroine characters engage constructions of motherhood womanhood femininity and selfhood as mediated by the structures that socially prescribe boundaries of gender sex and sexuality Within this collection scholars of literary cultural media and gender studies address the complications of representing agency autonomy and self determination within narrative texts complicated by age class race sexuality and a spectrum of privilege that reflects the complexities of scripting women on and off screen within and beyond the page This collection offers perspectives on the alternate narratives engendered through the motivations actions and agendas of the antiheroine while engaging with the discourses of how such narratives are employed both as potentially feminist interventions and critiques of access hierarchy and power Adweek ,2000-07 **New College Review** ,2019 *Rock of Pages* Jesse Kavadlo,2025-11-13 *Rock of Pages* provides contexts and close readings of 1980s heavy metal with forty years of hindsight drawing upon analytical frameworks usually associated with literature and literary studies Based on decades of work as a professor of literature and as a musician Jesse Kavadlo analyzes the ways in which 1980s heavy metal aligns with and develops many of the themes prevalent in the canon of literature In doing so the book examines some of the contexts of 1980s heavy metal including Cold War the rise of MTV and the formation of the Parents Music Resource Center PMRC and subsequent congressional hearings *Rock of Pages* takes the PMRC s own objections to heavy metal and uses them as titles and topics to analyze the intersections between heavy metal and literature representations of violence but the connected concerns about justice images of substance abuse and the interrelated issues of obsession madness suicidal ideation sex and love with concomitantly representations of women and relationships between men and women and the references to the occult with the depictions of Satan the afterlife and morality on earth itself In doing so the book suggests that 1980s heavy metal displayed more artistry and intelligence than people imagine but that literature is rebellious and subversive as well **Hollywood Creative Directory** ,2007 **TV Guide** ,2007 *Occasional Papers* National Museums and Monuments of Rhodesia,1980 "A Rush of Blood to the Head" ,**Movies on TV and Videocassette** Steven H.
