Disaster Risk Reduction for Resilience Saeid Eslamian, Faezeh Eslamian, 2023-03-29 This book is part of a six-volume series on Disaster Risk Reduction and Resilience. The series aims to fill in gaps in theory and practice in the Sendai Framework and provides additional resources, methodologies, and communication strategies to enhance the plan for action and targets proposed by the Sendai Framework. The series will appeal to a broad range of researchers, academics, students, policy makers, and practitioners in engineering, environmental science, and geography, geoscience, emergency management, finance, community adaptation, atmospheric science, and information technology. This volume offers indigenous approaches to disaster risk reduction, community sustainability, and climate change resilience, as well as agro-ecological innovations for improving resilience to climate change. The focus is on adaptation strategies for sustainable terrestrial and marine ecosystems to reduce the impacts of anthropogenic factors that exacerbate disaster risk, including hydro-meteorological services for climate resilience, food security measures in agriculture and livestock, flood mitigation plans, and increased climate change education and awareness. The book concludes with three case studies in Africa detailing the impacts of strengthened climate change resilience measures, adaptive social protections, and improved water availability through hydro-electric technologies.

Integrated Disaster Risk Management: From Earth Sciences to Policy Making Irasema Alcántara-Ayala, Jean-Claude Thouret, Peng Cui, Marten Geertsema, Rodrigo Cienfuegos, 2022-11-07 **The Transformation of Learning** Bert van Oers, Wim Wardekker, Ed Elbers, René van der Veer, 2008-03-03 The Transformation of Learning gives an overview of some significant advances of the cultural-historical activity theory, also known as CHAT, in the educational domain. Developments are described with respect to both the theoretical framework and research. The book's main focus is on the evolution of the learning concept and school practices under the influence of cultural-historical activity theory. Activity theory has contributed to this transformation of views on learning, both conceptually and practically. It has provided us with a useful approach to the understanding of learning in cultural contexts.
