Sea Street Nacto:

From the Ground Up Alison Sant, 2022-01-11 In *From the Ground Up* Local Efforts to Create Resilient Cities design expert Alison Sant focuses on the unique ways in which US cities are working to mitigate and adapt to climate change while creating equitable and livable communities Sant presents 12 case studies drawn from research and over 90 interviews with people who are working in these communities to make a difference These efforts show how US cities are reclaiming their streets from cars restoring watersheds growing forests and adapting shorelines to improve people's lives while addressing our changing climate *From the Ground Up* is a call to action When we make the places we live more climate resilient we need to acknowledge and address the history of social and racial injustice Advocates non profit organizations community based groups and government officials will find examples of how to build alliances to support and embolden this vision together

Merchant Vessels of the United States... United States. Coast Guard, 1957 *A pie o en bici. Perspectivas y experiencias en torno a la movilidad activa* Borja Ruiz-Apilánez, Eloy Solís, 2021-09-24 Los modelos de desarrollo urbano de ocupación territorial y de movilidad con los que hemos sobreocupado y sobreexplotado La Tierra durante las últimas décadas han desencadenado la actual crisis medioambiental que tiene repercusiones directas también sobre las personas Un cambio del modelo de movilidad que priorice los modos peatonal y ciclista los principales modos activos puede contribuir de forma decisiva a combatir y superar estas crisis Este libro presenta once perspectivas y once experiencias en torno a la movilidad activa y se dirige a todas las personas interesadas en el presente y futuro de nuestro planeta y en su propio bienestar Cada perspectiva se aproxima a la movilidad activa poniendo el acento en un aspecto concreto la salud pública el medio ambiente el diseño viario la forma urbana el planeamiento urbanístico la gobernanza la participación ciudadana el urbanismo técnico la comunicación las nuevas fuentes de datos y las reas urbanas históricas Las experiencias son las de once ciudades europeas en su mayoría espasolas de características y tradiciones culturales muy diversas Es un trabajo colectivo en el que han participado casi treinta autores Gestores públicos urbanistas investigadores y docentes universitarios todos con un interés común en transmitir la necesidad de cambiar nuestro modelo de transporte urbano dando a los modos activos el protagonismo que nuestro planeta y nosotros mismos merecemos *Merchant Vessels of the United States* , 1957

Merchant Vessels of the United States ... (including Yachts) , 1957 *Planning Support Science for Smarter Urban Futures* Stan Geertman, Andrew Allan, Chris Pettit, John Stillwell, 2017-05-11 This book offers a selection of the best articles presented at the CUPUM Computers in Urban Planning and Urban Management Conference held in the second week of July 2017 at the University of South Australia in Adelaide It provides a state of the art overview of the availability and application of planning support systems PSS in the context of smart cities big data and urban futures Rapid advances in computing information communication and web based technologies are reaching into all facets of urban life creating new and exciting urban futures With the universal adoption of networked computing technologies data generation is now so massive and all

pervasive in society that it offers unprecedented technological solutions for planning and managing urban futures These technologies are essential to effective urban planning and urban management in an increasingly challenging world with socially disruptive changes more complex and sophisticated urban lives and the need for resilience to deal with the possibility of adverse future environmental events and climate change The book discusses examples of these technologies which encompass inter alia smart urban futures where cities with myriad sensors are networked with communication technologies that enable the city planners to monitor well being and be responsive to citizens needs to allow dynamic management in real time PSS that encompass new hardware develop new indicators applications and innovative ways of facilitating public and community involvement in the management and planning of urban areas and urban modelling that draws on theory and the richness of data from the growing range of urban sensing and communication technologies to build a better understanding of urban dynamics trends and what if scenario investigations and to provide better tools for planning and policymaking

Cities' Vocabularies: The Influences and Formations Nabil Mohareb, Antonella Versaci, Yasser Mahgoub, Sreetheran Maruthaveeran, Francesco Alberti, 2021-01-23 This book discusses several topics regarding different vocabularies such as sacred architecture heritage buildings open spaces landmarks and street escapes all of which have a direct influence on the city form The city form is also affected by the indirect impact of the citizens themselves for example their culture which in turn depends on the arts as can be seen and embodied in morals paintings media digital art and sculpture The book also examines the fundamental elements that are responsible for the identity of the city Presenting case studies that demonstrate the how implementing the concept of the responsibility of architecture and arts affects the development of our cities the book offers a new approach that is based on the available features of a city and explores how planners and decision makers can use these features to address the myriad problems that our cities are facing **Regreening the Built Environment**

Michael A. Richards, 2024-09-18 Now in its second volume Regreening the Built Environment provides an overview of physical and social environmental challenges that the planet is facing and presents solutions that restore ecological processes reclaim open space foster social equity and facilitate a green economy Healing the planet requires a combination of strategies networked across multiple scales of development including buildings sites communities and regions Case studies from a range of locations in the United States Denmark Vietnam Germany South Korea Switzerland France and the United Kingdom among others demonstrate how existing gray infrastructure can be retrofitted with green infrastructure and low impact development techniques From this the author shows how a building can be designed that creates greenspace or generates energy likewise a roadway can be a parkway an alley can be a wildlife corridor and a parking surface can be a garden This new edition also includes case studies that have successfully reconnected communities that were fragmented by unjust planning practices and irresponsible patterns of development resilient design solutions in response to natural disasters passive design strategies that can make interior spaces more efficient and healthier and expanded discussions on

capturing carbon renewable energy agriculture waste public transit and adaptive reuse including innovative ideas on how to reimagine the shopping mall in the era of e commerce The strategies presented in this book will stimulate discussions within the design profession and will be of great interest to students and practitioners of environmental studies architecture landscape architecture and urban design

American Druggist Blue Book ,1958 **American Druggist Blue Price Book** ,1959 *Adaptation Urbanism and Resilient Communities* Billy Fields,John L. Renne,2021-05-03 *Adaptation Urbanism and Resilient Communities* outlines and explains adaptation urbanism as a theoretical framework for understanding and evaluating resilience projects in cities and relates it to pressing contemporary policy issues related to urban climate change mitigation and adaptation Through a series of detailed case studies this book uncovers the promise and tensions of a new wave of resilient communities in Europe Copenhagen Rotterdam and London and the United States New Orleans and South Florida In addition best practice projects in Amsterdam Barcelona Delft Utrecht and Vancouver are examined The authors highlight how these communities are reinventing the role of streets and connecting public spaces in adapting to and mitigating climate change through green blue infrastructure planning maintaining and enhancing sustainable transportation options and struggling to ensure equitable development for all residents The case studies demonstrate that while there are some more universal aspects to encouraging adaptation urbanism there are also important local characteristics that need to be both acknowledged and celebrated to help local communities thrive in the era of climate change The book also provides key policy lessons and a roadmap for future research in adaptation urbanism Advancing resilience policy discourse through multidisciplinary framework this work will be of great interest to students of urban planning geography transportation landscape architecture and environmental studies as well as resilience practitioners around the world [The New Yorker](#)

administration and planning to understand how such diverse civic and professional associations have come to be both an ecology of organizations and a systemic and coherent project The institutional field of sustainable cities has emerged with some core democratic norms and civic practices but also with many tensions and trade offs that must be crafted and revised strategically in the face of new opportunities and persistent shortfalls Sirianni s account draws ambitious yet pragmatic and hopeful lessons for a Civic Green New Deal a policy design for building sustainable and resilient cities on much more robust foundations in the decades ahead while also addressing democratic deficits in our polarized political culture
