Chapter 12.1-12.3

Chapter 12.1 – The Fossil Record

MAIN IDEA: Fossils can form in several ways. In the spaces provided, write either the type of fossil being described or a brief description of how the fossil type is formed.

Type of Fossil	Description of Fossil Formation
1.	Organism trapped in tree resin that hardens after being buried.
2. Natural cast	An impression is left in sediment, and minerals fill the impression in, recreating the original shape of the organism.
3. Trace fossil	
4. Permineralized fossil	Minerals are deposited around a hard structure and may replace the structure
5.	Organism becomes encased in materials such as ice or volcanic ash, or immersed in a bog.

Use Figure 12.2 in the textbook to fill in a sequence diagram that describes the process of permineralization.

Fill-in the graphic organizer with the appropriate terms, definition and examples (examine pages 360-363 in the textbook to assist you):

The Great Creation Debate Brad Freckleton, 2012-07 Why isn't the evolution of flight shown in the fossil record Bugs birds bats and dinosaurs flew and are shown fully formed in the fossil record but there are no animals with halfway wings in the fossil record leading from ground based animals to flying animals What is desperately wrong with the Grand Canyon if evolution is true Where are the massive signs of erosion between the sedimentary layers of the Grand Canyon if they were laid down a million years at a time Why does massive erosion only show up at the top Animals with well developed eyes show up suddenly in the fossil record as do flying animals It's the norm for plants and animals to show up in the fossil record with the same separations as we see in different types of living animals and plants today The second law of thermodynamics is a law of science that says everything left to its own will wear out run down It is a fundamental law of science So how did evolution accidentally go up How could a DNA molecule fumble together The cell needs DNA DNA needs the cell which came first Beneficial mutations also weaken in other areas and don't write evolutionary advancing DNA code Spiral galaxies which have the shape of a star fish that is spinning quickly throughout our universe like our Milky Way galaxy are supposed to be over 10 billion years old If they were over a billion years old they would lose their spiral arm shape The arms of our galaxy the Milky Way only show a maximum age of 0.3 billion years People want to know why they're here now and where they're

going to go They want surety of truth also Read this book and see how well evolution holds up in all the sciences Read this book and see if life can have meaning direction and hope with surety For those who claim to be open minded put on your seatbelts and keep your arms inside as you ride the roller coaster of your own value systems **Biology Chapters 1-19**

Mary Ann Clark,Matthew Douglas,Jung Choi,2020-03-27 Unveiling the Ruse Lynne Fox,2022-03-16 Two thousand years ago the apostle Peter wrote in his second epistle that in the last days people would scoff at the notion of Christ s second coming He also wrote that the same would be willingly ignorant of the creator God who made the universe and of the Genesis flood that overtook the entire world True to Peter s prophecy Charles Darwin s theory of evolution has replaced the biblical account of man s origins and the global cataclysm to which Noah was witness has been reduced to a fable However the candor of Genesis is beginning to emerge as scientists find evidences in geology paleontology and genetics painting a different picture than naturalism the same substances which are crowned as scientific proofs of deep time and of goo to you evolution showcase the very catastrophe and the account of creation that secular academia aims to censor Following evidence of the supernatural acting upon the natural one discovers both God and his adversary in their conflict over man But the Word of God has revealed its predetermined end and it may come sooner than many would expect Inversely we might have little reason to fear archaic ideas let the Judeo Christian God be a bygone already some say With our knowledge increasing exponentially our future is bright As scientists unlock the secrets of DNA and develop technology beyond our forefathers wildest dreams humankind may even have a shot at achieving immortality one day leaving worries of heaven and hell behind And considering the vastness of the universe in which we hope to expand there could be intelligent life already among the stars that might one day make contact and aid us in our aspirations or this is all just part of the ruse
