Email Marketing William Jones, 2021 You finally realize that you need a good opt in list After reading countless articles and sought expert advices and have read many success stories of people creating a small fortune with opt in lists you finally decide to have one of your own Then it happens you think you have known everything there is to know about opt in lists and have followed their advices to the T and you still weren't able to make a profit In fact you may be losing money You maybe hiring writers to help you out or there are some expenses incurred even if you have a big list but only a very small percentage actually buys from you your still losing profit You ll realize that after a few months when you see your statistics and sales figures So what could have gone wrong Why have others succeeded where you have failed The most common mistake is that you dived straight right in You chose a topic where you think could be quite popular and would earn you money This just not the case Just because you wrote people from the list doesn't mean they are going to buy instantly Here I will offer more advice for those who have started an opt in list and have failed you can rejuvenate your failed venture For those who are starting here are three quick and easy ways to build a profitable opt in list Get your customers to trust you and your products first Just launching your opt in list would not make you an expert and a believable seller Put many articles first before you start an opt in list Write about the topic you know and have started and used for your site Try to put forums first to gain knowledge about your customers about their wants and needs and target those wants and needs Join forums from other sites as well Provide expert advices and recommendations When you feel that people trust you already you will be able to start your own opt in list You can build a base as well with other forum users You can ask them to join your list Friends are always good customers Put up a link to your site so that they may be able to see what your business is all about The certain truth is the money will only come in when the consumers and subscribers believe and trust in you They want a product or service that could be a good exchange for their money People are not going to buy something out of your recommendation if they don't know you Find a product or service that people want and need Although it may not be your forte if you provide a service and product that you have researched and learned about well you can carry it on forward Invest your time effort and money that you could sell as well as the buyers or subscribers of your opt in list can use While it is true that it is best to sell something that you have interest in there are not many people who have the same interest as you if you decide to sell something that is not entirely popular or profitable Do your research well and you would see the profits come in

Also provide your subscribers with promotional material that they could actually use and spread around Make friends with other opt in list users This is basically beneficial especially if it is someone who has already launched a successful opt in list These are people that have the experience in this venture and experience is still the best teacher While there are many articles available for you in the internet to use there is nothing like getting a first hand account from someone you trust Experienced opt in list users will be able to tell you what to do and what not to do because they have gone through it While different situations occur for different people the general concept can still be very helpful There are many things to avoid and these people will be able to tell you which ones
