Heumann, 2024-09-06 Illuminating the impacts of environmental disasters and climate crises globally this book examines the experiences of teens grappling with eco disasters and issues in films of the twenty first century With an emphasis on teen activism international settings and filmmakers and marginalized perspectives this book showcases teens on film that are struggling with present and future everyday eco disasters amplified by climate change By highlighting and interrogating diverse genres of teen films in which young adults encounter address and battle environmental issues and calamities while also struggling with adolescent development this

book acknowledges the young adult point of view missing from most critical ecocinema research and underlines connections between the more complex coming of age themes found in teen films with ecocinema themes and approaches The films examined navigate increasingly realistic conditions even in fantastical settings as they showcase teens relationships with and responses to environmental issues and eco disasters Emphasizing teen activism and under represented intersectional perspectives outside Hollywood it establishes the eco teen film as a notable subgenre This book will be of interest to students and scholars of film studies ecocriticism and environmental studies especially those with a particular interest in ecocinema and or ecocritical readings of films

The Windup Girl Paolo Bacigalupi,2009-09-01 Recipient of the Sturgeon Award Paolo Bacigalupi s writing has appeared in The Magazine of Fantasy Science Fiction Asimov s Science Fiction Magazine and the environmental journal High Country News His non fiction essays have appeared in Salon com and High Country News and have been syndicated into numerous western newspapers *Fiction in the Age of Risk* Tony Hughes-d'Aeth,Golnar Nabizadeh,2020-04-02 When Ulrich Beck theorised a Risk Society Risikogesellschaft in 1986 the threat of global annihilation through nuclear war remained uppermost in the minds of his readership Three decades on questions about whether the sensation of risk has mutated or evolved in the intervening period and whether fiction exhibits evidence of such a change remain just as urgent While the immediate risk of the Cold War s mutually assured destruction through World War Three seems to have ebbed the paradox is that the social goal of safety and security seem to elude attainment Global financial collapse Islamic terrorism human authored climate change epidemic disease outbreaks refugee crises and the chronic erosion of the welfare state now preoccupy those in the developed world and provide the horizons for contemporary anxieties worldwide The contributions to this volume explore these themes locating their significance and representation in a diverse range of contemporary literature film and comics from China Australia South Africa United Kingdom Pakistan and the United States This book was originally published as a special issue of Textual Practice

The Cambridge Companion to American Utopian Literature and Culture since 1945 Sherryl Vint,2024-05-16 Providing a comprehensive overview of American thought in the period following World War II after which the US became a global military and economic leader this book explores the origins of American utopianism and provides a trenchant critique from the point of view of those left out of the hegemonic ideal Centring the voices of those oppressed by or omitted from the consumerist American Dream this book celebrates alternative ways of thinking about how to create a better world through daily practices of generosity justice and care The chapters collected here emphasize utopianism as a practice of social transformation not as a literary genre depicting a putatively perfect society and urgently make the case for why we need utopian thought today With chapters on climate change economic justice technology and more alongside chapters exploring utopian traditions outside Western frameworks this book opens a new discussion in utopian thought and theory

The Oxford Handbook of Global Realisms Vaysman,2025-11-04 Realism is an artistic practice that aims to faithfully represent reality Historically it has been

practiced across different media from early pictorial art and epic oral narratives through literature and visual arts to film music and digital media However an understanding of what it means to faithfully represent reality is not universal rather it varies from culture to culture The Oxford Handbook of Global Realisms approaches realism as a transnational transhistorical and intermedial global phenomenon It brings the diversity of global realisms to the fore showcasing previously underrepresented and marginalized theories practices forms and media of realist cultural production **The**

Post-Apocalyptic Novel in the Twenty-First Century H. Hicks, 2016-04-08 Since the beginning of the twenty first century major Anglophone authors have flocked to a literary form once considered lowbrow genre fiction the post apocalyptic novel Calling on her broad knowledge of the history of apocalyptic literature Hicks examines the most influential post apocalyptic novels written since the beginning of the new millennium including works by Margaret Atwood David Mitchell Cormac McCarthy Jeanette Winterson Colson Whitehead and Paolo Bacigalupi Situating her careful readings in relationship to the scholarship of a wide range of historians theorists and literary critics she argues that these texts use the post apocalyptic form to reevaluate modernity in the context of the new century s political economic and ecological challenges In the immediate wake of disaster the characters in these novels desperately scavenge the scraps of the modern world But what happens to modernity beyond these first moments of salvage In a period when postmodernism no longer defines cultural production Hicks convincingly demonstrates that these writers employ conventions of post apocalyptic genre fiction to reengage with key features of modernity from historical thinking and the institution of nationhood to rationality and the practices of literacy itself **Routledge Handbook of Ecocriticism and Environmental Communication** Scott

Slovic, Swarnalatha Rangarajan, Vidya Sarveswaran, 2019-02-01 Ecocriticism and environmental communication studies have for many years co existed as parallel disciplines occasionally crossing paths but typically operating in separate academic spheres These fields are now rapidly converging and this handbook aims to reinforce the common concerns and methodologies of the sibling disciplines The Routledge Handbook of Ecocriticism and Environmental Communication charts the history of the relationship between ecocriticism and environmental communication studies while also highlighting key new paradigms in information studies diverse examples of practical applications of environmental communication and textual analysis and the patterns and challenges of environmental communication in non Western societies Contributors to this book include literary film and religious studies scholars communication studies specialists environmental historians practicing journalists art critics linguists ethnographers sociologists literary theorists and others but all focus their discussions on key issues in textual representations of human nature relationships and on the challenges and possibilities of environmental communication The handbook is designed to map existing trends in both ecocriticism and environmental communication and to predict future directions This handbook will be an essential reference for teachers students and practitioners of environmental literature film journalism communication and rhetoric and well as the broader meta discipline of

environmental humanities **Science Fiction in India** ,2022-05-30 Shortlisted for the British Society for Literature and Science BSLS Book Prize 2023 Nominated 2023 Teaching Literature Book Award Indian Science Fiction has evolved over the years and can be seen making a mark for itself on the global scene Dalit speculative fiction writer and editor Mimi Mondal is the first SF writer from India to have been nominated for the prestigious Hugo award In fact Indian SF addresses themes such as global climate change Debates around G C C are not just limited to science fiction but also permeate in critical discussions on SF This volume seeks to examine the different ways by which Indian SF narratives construct possible national futures For this looking forward necessarily germinates from the current positional concerns of the nation While some work has been done on Indian SF there is still a perceptible lack of an academic rigor invested into the genre primarily perhaps because of not only its relative unpopularity in India but also its employment of futuristic sights Towards the same among other things it proposes to study the growth and evolution of science fiction in India as a literary genre which accommodates the duality of the national consciousness as it simultaneously gazes ahead towards the future and glances back at the past In other words the book will explore how the tensions generated by the seemingly conflicting forces of tradition and modernity within the Indian historical landscape are realized through characteristic tropes of SF storytelling It also intends to look at the interplay between the spatio temporal coordinates of the nation and the SF narratives produced within to see firstly how one bears upon the other and secondly how processes of governance find relational structures with such narratives Through these the volume wishes to interrogate how postcolonial futures promise to articulate a more representative and nuanced picture of a contemporary reality that is rooted in a distinct cultural and colonial past *The Oxford History of the Novel in English* Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had

significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

Fuel Heidi C. M. Scott, 2018-07-12 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com **Fuel** An Ecocritical History is the first book to chart our changing attitudes to fuel and energy through the literature and culture of the modern era focusing on the 18th century to the present Reading a wide range of writers from Blake Austen and Dickens to Upton Sinclair and Edward Abbey Heidi Scott explores how our move from a pre industrial reliance on biomass and elemental energy sources to our current dependence on the fossil fuels of coal oil and natural gas have fundamentally shaped human identity and culture The book's Anthropocene perspective reshapes our view of energy history and climate change and **Fuel** looks forward to ways in which we can reimagine our culture away from the fossil fuel paradigm towards a more sustainable energy future driven by renewable elemental energy

Ship Breaker no 01/03 Paolo Bacigalupi, 2024-09-25

Primera parte de esta trilogía de ciencia ficción En la costa de lo que una vez fue el golfo de México la gente sobrevive desguazando antiguos petroleros y buques mercantes y malvendiendo lo que encuentra a las grandes empresas Nailer y sus compañeros la cuadrilla ligera afrontan el trabajo más arriesgado meterse en las entrañas de los barcos a rebuscar Es una profesión dura en un mundo duro en el que nadie cuida de nadie y gana el más rápido Sin embargo la suerte sonríe a Nailer el día que descubre un hermoso velero encallado en las rocas Con lo que saque del naufragio podrá abandonar la playa Pero dentro también hay una prisionera si la mata será rico si la ayuda a regresar con los suyos empezará la aventura

The Anthropocene and the Undead Simon Bacon, 2022-03-22 The Anthropocene and the Undead describes how our experience of an increasingly erratic environment and the idea of the undead are more closely linked than the obvious zombie horde signaling the end of the world In fact as described here much of how we understand the anthropocene both conceptually and in practice involves undead entities from the past that will not die undead traumas that rise up and consume the world and undead temporalities that can never end Fifteen original essays by cultural and anthropological experts such as Kyle William Bishop Nils Bubandt Johan H. Glund and Steffen Hantke among others study the nature of humanity's ongoing complicated relationship to the environment via the concept of the undead In doing so The Anthropocene and the Undead sheds invaluable light on adjacent concepts such as the Capitalocene Necrocene Disanthropocene Post anthropocene and the Symbiocene to trace real and imagined trajectories of our more than human selves into undead and undying futures

Teaching Climate Change to Children Rebecca Woodard, Kristine M. Schutz, 2024 Teaching Climate Change to Children describes the journey of two literacy researchers to learn about climate change and support relevant literacy

pedagogy for young children pre K 6 The authors argue that climate change and social justice are inextricable from each other that children in the younger grades are capable of learning about climate change and that reading writing and language study is well suited to this work Three anchoring themes are offered to support literacy climate pedagogy interconnectivity relationality and action with rich classroom examples and different entry points to engage with these themes either by starting small or going big The text includes chapters on the importance of taking an emotionally affirming stance and on the potential of incorporating arts based methods With love for the Earth and one another at its core this accessible book takes a broad view of what it means to cultivate sustainable futures for our planet for teachers and for children in today s schools Book Features A unique focus on teaching about climate change to young children as opposed to adolescents Insights drawn from a yearlong teacher inquiry group with classroom teachers and from literacy methods courses with preservice teachers Explicit attention to the importance of humanizing and care based practices in literacy climate pedagogy Classroom examples collected across four urban public schools where teachers used the activities and resources discussed in the book User friendly textboxes with suggestions and questions to guide discussion reflection and action

Embracing the Tune of Term: An Mental Symphony within **Ship Breaker 1 Paolo Bacigalupi**
