Foreword by Haddon W. Robinson *Understanding Children's Spirituality* Kevin E. Lawson, 2012-03-22

How important is childhood in the spiritual formation of a person? How do children experience God in the context of their lives as they grow? What does God do in the lives of children to draw them to himself and help them grow into a vital relationship with him? How can adults who care about children better support their spiritual growth and direct it toward relationship with God through Jesus Christ? These are critical questions that church leaders face as they consider how best to nurture the faith of the children God brings into our lives. In this book, over two dozen Christian scholars and ministry leaders explore important issues about the spiritual life of children and ways parents, church leaders, and others who care about children can promote their spiritual formation.

Biblical Theology of prayer in the Old Testament

Albert J. Coetsee, Francois P. Viljoen, 2023-08-31 Prayer is a major topic within Christian theology The biblical text has various references to various recorded and reported prayers In fact references to prayer are found within the rich diversity of

the various books corpora and genres of Scripture As can be expected much has been written about prayer in the biblical text However a comprehensive Biblical Theology dealing with the concept of prayer in Scripture has not been published before and this book intends to fill this gap assuming that such an approach can provide a valuable contribution to the theological discourse on prayer and related concepts This book aims to investigate prayer and its related elements including worship praise thanksgiving adoration petition intercession lament and confession in the Old Testament on a book by book or corpus by corpus basis The investigation follows a Biblical Theological approach reading the Old Testament on a book by book basis in its final form to uncover the Old Testament s overarching theology of prayer understanding the parts in relation to the whole By doing this the discrete nuances of the prayers of the different Old Testament books and corpora can be uncovered letting the books and corpora speak for themselves In addition the advantage of this approach is that it provides findings that can benefit the modern Christian community and contribute to the practice of Reformed theology in Africa This book is of significant value to scholars It will inspire scholars to think about prayer and use the Bible as the major prayer handbook in their spiritual lives
