Popkova, Artem I. Krivtsov, Aleksei V. Bogoviz, 2021-07-19 Against the background of continuing crises in the world's economy the question of what future awaits it in the third decade of the 21st century has become urgent According to the paradigm model of long waves the next global economic crisis is expected to

transpire somewhere around 2030 This book defines the basic conditions for the development of the modern global economy analyzing future scenarios for its long term development and providing applied recommendations for the practical implementation of the optimal scenario The book first explores the conceptual vision of the future and the priorities for the strategic development of the global economic system until 2030 It then formulates the requirements for entrepreneurship to achieve the priorities of the strategic development of the global economic system including long term industry solutions for entrepreneurship and markets Third it outlines the guidelines for state regulation of the global economic system in the interest of achieving the priorities of its strategic development in the period up to 2030 □□□□□□□□□□,2007 **The**

Decline of the Work Process in a Business Profession Ahmed Riahi-Belkaoui,2017 The accounting work is experiencing a general decline as a result of the situations of proletarianization alienation and deskilling The Problematics of the Production of Knowledge in Accounting Ahmed Riahi-Belkaoui,2017 The production of accounting knowledge suffers from problems inherent in a contamination of the research process at the hands of academics and a distorted transformation of the accounting knowledge at the hands of the profession Both problems are at the core of a crisis in the production and dissemination of accounting knowledge The Problematics of Truth in Business and Accounting Ahmed

Riahi-Belkaoui,2019 This paper posits that truth in business in general and accounting in particular is an elusive goal

The New Context of the Accounting Profession Ahmed Riahi-Belkaoui,2017 Using a structural perspective this working paper proposes that the new accounting environment includes four new dimensions in need of empirical investigations **Formal Knowledge in Accounting Studies** Ahmed Riahi-Belkaoui,2014 This article draws on Pepper s

World Hypotheses to describe four different approaches to obtain formal knowledge in accounting studies These approaches are formism mechanism contextualism and organicism **The Human Asset Report** Ahmed Riahi-Belkaoui,2019 The

article examines the rationale for human resource accounting and the methods used both in the literature and in practice for human resource valuation and the production of human asset reports *Corporate Reputation, Internalization and the*

Market Valuation of Multinational Firms Ahmed Riahi-Belkaoui,2003 The paper examines the role of reputation to explain the relative market value compared to the accounting value for a multinational firm The results are consistent with

internalization theory in that greater multinationality corresponds to a higher valuation of the firm if corporate reputation id high However greater multinationality alone does not correlate positively to a significantly greater value which differs from

the tenets of imperfect capital markets theory but correlates negatively to a significantly greater value which confirms the views of the managerial objectives theory **Earnings Opacity and the Productivity of Nations** Ahmed

Riahi-Belkaoui,2003 Output per worker varies significantly from one country to another Why Our analysis shows that differences in earnings opacity are important sources of this variation Earnings opacity is a measure that reflects how little information there is in a firm s earnings number about its true but unobservable economic performance According to your

results a high productivity country has the accounting quality associated with low earnings opacity Quality of accounting in general and low earnings opacity in particular help a country by stimulating the accumulation of human and physical capital and by raising its total factor productivity

Politically-Connected Firms Ahmed Riahi-Belkaoui,2019 This paper is an investigation of the relationship between earnings opacity in 32 countries and elements of the political order What the picture shows is a clear manifestation of earnings opacity internationally What is interesting with this picture is the findings that earnings opacity is positively related to the percentage of politically connected listed firms and negatively related to the connected firms as a percentage of market capitalization and the degree of law enforcement What is puzzling with this picture is the findings that the level of disclosure the number of auditors per 100 000 inhabitants and the adoption of International Accounting Standards as elements of the accounting order are not significantly related to earnings opacity internationally It is the political climate rather than the technical accounting climate that is at the core of accounting quality in general and earnings opacity in particular

Value Added Reporting Under Price Change Models Ahmed Riahi-Belkaoui,2019 This paper illustrates the derivation of a value added statement under price change models Consideration of both value added reporting and accounting for inflation provide better measures of profit and changes in wealth

The Architecture of Fraud in the Accounting Environment Ahmed Riahi-Belkaoui,2017 This paper introduces an architecture of fraud in accounting by explicating the nature of fraud in the accounting environment providing some theoretical explanations of the phenomenon from the field of criminology and exploring some outcome situations arising from corporate fraud

A Macro Social Report Ahmed Riahi-Belkaoui,2019 The routes to a macro social report are the social indicators movement the refinements in national income accounting and the increasing role of accounting in achieving economic development This article examines each of these routes

Antecedents and Consequences of Earnings Opacity Ahmed Riahi-Belkaoui,2009 This paper posits that the phenomenon of earnings opacity is not only the result of legal religious political social economic and accounting antecedents but also creates consequences for the quality of government corporate valuation economic growth and productivity of nations The examination of the empirical relations between earnings opacity and its antecedents and consequences is viewed as a first step toward the development of an international contingency theory of earnings opacity

Diversification Strategy as a Determinant of the Earnings Persistence of U.S. Multinational Firms Ahmed Riahi-Belkaoui,2003 This study tests the relationship between diversification strategy and earnings persistence provided by Autoregressive Integrative Moving Average ARIMA models When higher order ARIMA models are used this study shows the earnings persistence of U S Multinational firms to be positively related to size related diversification and vertical integration and negatively related to unrelated diversification

The Substitution of Net Value Added for Earnings in Equity Valuation Ahmed Riahi-Belkaoui,2019 The article investigates the usefulness of the substitution of Net Value Added for Earnings in Equity Valuation The empirical results provide evidence on the predictive power of net

value added and the need for a better disclosure of its components
