Akbar Zaidi Economic Issues Chapter 15:

Issues in Pakistan's Economy S. Akbar Zaidi, 2005 This book is the main text for post graduate courses on South Asia's development economic history and on its political economy For researchers on Pakistan's economy it is the key source for reference and covers a huge and diverse array of data literature reviews commentary and analysis The Pakistan Paradox Christophe Jaffrelot, 2016-06-16 The idea of Pakistan stands riddled with tensions Initiated by a small group of select Urdu speaking Muslims who envisioned a unified Islamic state today Pakistan suffers the divisive forces of various separatist movements and religious fundamentalism A small entrenched elite continue to dominate the country's corridors of power and democratic forces and legal institutions remain weak But despite these seemingly insurmountable problems the Islamic Republic of Pakistan continues to endure The Pakistan Paradox is the definitive history of democracy in Pakistan and its survival despite ethnic strife Islamism and deep-seated elitism This edition focuses on three kinds of tensions that are as old as Pakistan itself The tension between the unitary definition of the nation inherited from Jinnah and centrifugal ethnic forces between civilians and army officers who are not always in favour of or against democracy and between the Islamists and those who define Islam only as a cultural identity marker Economic and Political Weekly, 2005 **The South Asian Association for Regional Cooperation (SAARC)** Lawrence Saez, 2012-05-23 The South Asian Association for Regional Cooperation SAARC is an international organization comprised of the eight countries in South Asia This work aims to examine the institutional structure objectives and effectiveness of the SAARC in its role as South Asia's leading regional institution Drawing on original research it offers a fresh and accessible account of SAARC arguing that South Asia forms a unique regional security complex that enables certain forms of regional cooperation and bars cooperation on other issue areas The text provides a comprehensive introduction to the SAARC describing the historical developments that lead to its formation and examining key issues such as The inner workings of Regional Centres and their success in implementing the decisions reached at SAARC summits How SAARC has sought to address critical new security challenges such as health pandemics terrorism energy security South Asia's economic cooperation and the South Asia Free Trade Agreement SAFTA Challenges that expansion pose to the organization particularly China's suggestion to expand beyond the traditional borders of South Asia The work aims to evaluate what scope there is for formal institutions like SAARC to provide a permanent regional security architecture within which South Asian countries can effectively address important issues and will be of great interest to all students and scholars of Asian security studies and institutions in general and students and scholars of international relations in South Asia in particular **The Politics of Ethnicity in Pakistan** Farhan Hanif Siddiqi, 2012-05-04 In order to understand the Pakistani state and government's treatment of non-dominant ethnic groups after the failure of the military operation in East Pakistan and the independence of Bangladesh this book looks at the ethnic movements that were subject to a military operation after 1971 the Baloch in the 1970s the Sindhis in the 1980s and

Mohajirs in the 1990s The book critically evaluates the literature on ethnicity and nationalism by taking nationalist ideology and the political divisions which it generates within ethnic groups as essential in estimating ethnic movements It goes on to challenge the modernist argument that nationalism is only relevant to modern industrialised socio economic settings The available evidence from Pakistan makes clear that ethnic movements emanate from three distinct socio economic realms tribal Baloch rural Sindh and urban Mohajir and the book looks at the implications that this has as well as how further arguments could be advanced about the relevance of ethnic movements and politics in the Third World It provides academics and researchers with background knowledge of how the Baloch Sindhi and Mohajir ethnic conflict in Pakistan took shape in a historical context as well as probable future scenarios of the relationship between the Pakistani state and government and ethnic groups and movements

South Asia Conundrum B. M. Jain, 2019-04-30 *South Asia Conundrum* offers fresh ideas and enlightening narratives about how geopolitical and geostrategic entanglements of extra regional powers notably the United States Russia and China in South Asia and its extended neighborhood have transformed the Af Pak region into a theater of unending conflict and political instability The book addresses and illuminates the impending challenges and evaluates policy options before the Trump administration and US allies in dealing with the Afghan imbroglio The book argues how the emerging strategic alliance among Russia Iran China and Pakistan has not only constrained US options in the region but has also constricted the US role and influence in South Asia Afghanistan and Central Asia *South Asian Conundrum* further illustrates how the China Pakistan Economic Corridor CPEC a part of Beijing's mega Belt and Road Initiative BRI constitutes a direct challenge to economic and security interests of India and the United States in the region The scope of the book is not exclusively limited to South Asia Its geostrategic and geo economic ramifications are much larger and deeper in global and regional contexts involving the Greater Middle East Asia the triangular Russian Chinese and Iranian strategic partnership and the long term fallout of CPEC and China's BRI on global political and economic architecture
