**Politics in The Gambia and Guinea-Bissau** Mariama Khan, 2021-11-18 This book explores how precolonial political traditions and practices shape modern day politics in The Gambia and Guinea Bissau The precolonial Kaabu empire dominated the region for over 300 years leaving a rich oral and ritual culture that emphasized the importance of a ruler s legitimacy among the general population This book traces how postcolonial political administrations and Justice Integrity and Truth JIT movements have mobilized to reclaim reinvent and subvert traditional Kabunka norms of statecraft to prove their political legitimacy It shows how cultural memory oral arts and musical forms can be used to express ideals of leadership and followership and in the process create various conversations and debates about politics and society social attitudes and morality In doing so the book captures how the latent but influential social and political practices from Kaabu are reclaimed reproduced or subverted to contribute to the evolving nature of political rhetoric in these two countries Whereas many studies of the state in Africa take Western democratic principles as a starting point this book provides important evidence on the continuity of precolonial political culture along African s west coast It will be of interest to researchers studying politics history and anthropology both within the region and elsewhere in Africa

**Africa's Social Cleavages and Democratization** Douglas Kimemia, 2015-12-17 Africa s Social Cleavages and Democratization offers a comparative approach to African countries by providing an in depth analysis of the impact of ethnicity and religion on both multiparty and post multiparty eras By applying different theoretical frameworks Douglas Kimemia explores and analyzes how social cleavages have affected the growth of democracy in Africa It is crucial to assess the relationship between democratic development and the impact of social cleavages because multiparty politics have increased political competition participation transparency and civic engagement in Africa However social divisions have significantly slowed the maturing of democracy as these social cleavages have become polarizing factors which are used by political elites for their own self interest As a result politics of identity caused by competition of natural resources have led to increased conflicts and political

instability in Africa The social cleavages have also led to polarized party systems and caused adverse effects on democracy due to the highly polarized societies and political competition Despite the many positive impacts multiparty politics have increased the consciousness of ethnic and religious identities leading to unhealthy political competition as evidenced by highly fragmented societies prone to conflicts and violence Kimemia comprehensively examines different governing electoral and party systems in order to determine the different incentives and how social divisions shape them This analysis helps to distinguish more permanent political structures from the merely epiphenomenal within the African political scene

**Dictators and Democracy in African Development** A. Carl LeVan, 2015 This book argues that the structure of the policy making process in Nigeria explains variations in government performance better than other commonly cited factors

University Education, Controversy and Democratic Citizenship Nuraan Davids, Yusef Waghid, 2020-11-16 This book explores the role of the university in upholding democratic values for societal change The chapters advocate for the moral virtue of democratic patriotism the editors and contributors argue that universities as institutions of higher learning can encourage the creation of critical and patriotic citizens The book suggests that non violence tolerance and peaceful co existence ought to manifest through pedagogical university actions on the basis of educators desire to cultivate reflectiveness criticality and deliberative inquiry in and through their academic programmes In a way universities can respond more positively to the violence on our campuses and in society if public and controversial issues were to be addressed through an education for democratic citizenship and human rights

*Nigeria's 2019 Democratic Experience* Egodi Uchendu, Olawari D. J. Egbe, 2022-06-06 Nigeria's democratisation efforts since attaining political independence from Britain have been tumultuous and have spanned over three successive republics A persistent bug decimating Nigeria's democracy and repeatedly leading to military coups has been brazen electoral violence perpetrated by the nation's political elite Nigeria's 2019 Democratic Experience analyses and explains what went wrong in Nigeria's experiment with democracy Nigeria Africa's most populous nation and the world's seventh most populous nation also contributes 70% of West Africa's population She is sub Saharan Africa's largest oil producer and has remained Africa's largest economy by GDP since 2014 The country has hundreds of diverse ethnic nationalities and languages grouped into 36 states or federating units and an independent federal capital territory Though recognized as Africa's largest democracy her democratisation process since the 1960s has remained tumultuous with massive electoral violence and political intolerance This repeatedly compelled the military to intervene in the nation's political history in the years 1966 1983 and 1985 It is these developments that provided the motivation for this volume to capture for posterity the conduct of the 2019 General Elections in Nigeria

**The Peacebuilding Process in Postwar Liberia** Alžběta Šváblová, 2021 Who are the most important actors in the peacebuilding process in post war Liberia How do they interact in specific institutions on the ground and what are the factors behind the slow pace of the post war reform process This book designed as a qualitative case study with a strong descriptive component provides answers to these

questions It highlights the importance of the domestic political landscape for the ultimate fate of the reforms and the role of influential individuals in the process Its findings indicate that despite a rich critical academic debate the current practice of peacebuilding remains shaped by the neo liberal paradigm and remains rather disconnected from the post conflict realities and individuals on the ground Neue Bücher und Aufsätze in der Bibliothek Germany. **The End of Conceit** Patrick Chabal,2012-08-23 In this radical new book Patrick Chabal reveals how the future of the West is now inextricably linked to that of the non West The rise of the economic power of China and other Asian countries as well as urgent environmental issues now force the West to think in new ways about how to best face the future This is an issue which runs far deeper than present debates on the decline of the West might suggest The book argues that the postcolonial challenge from regions such as Asia Africa Latin America and the Middle East as well as the influence of citizens of non Western origins now living in the West have combined to expose the limits of Western rationality that is the theories and concepts we currently use to understand and act upon the world Discussing such provocative questions as Is it a good idea to build mosques in Europe and Is Beckham the new black icon Chabal explores the growing failure of Western social thought to explain many of our most pressing domestic social and economic issues He also discusses contentious issues in international relations such as the spread of democracy and the protection of human rights He concludes that ultimately what the West needs is not more and better theory but an entirely new way of thinking one that will put an end to its current deep seated conceit *Suffering and Smiling* Sterling Johnson,2009 Suffering and Smiling is an examination of the myriad challenges of impoverishment facing Africa and Africans in the new millennium Selected African states and institutions are

examined using the patient physician relationship and the various systems of the human body as models The major diseases and maladies and the impact of HIV AIDS are examined as well as the challenges to the continent s cardiovascular system educational nutritional needs food and nutrition skeletal system infrastructure respiratory system resource use and autoimmune system police and military systems The Democratic Republic of Congo Kenya Liberia Nigeria Rwanda Uganda Sierra Leone South Africa Uganda and Zimbabwe are individually diagnosed     **Africa Works** Patrick Chabal, Jean-Pascal Daloz, 1999 Are there social political and cultural factors in Africa which aspire to the continuation of patrimony and conspire against economic development In association with the International African Institute North America Indiana U Press
