After The Fact The Art Of Historical Detection Vol 1:

After the Fact James West Davidson, Mark H. Lytle, 1982 Under the historians eye the puzzles of the past turn and reveal themselves Here are good stories well told displaying the essential fascination of scholarship in action and what it can accomplish

The Literature/Film Reader James Michael Welsh, James M. Welsh, Peter Lev, 2007-08-14 From examinations of Francis Ford Coppola's *Apocalypse Now* to Alfred Hitchcock's *Vertigo* *The Literature Film Reader Issues of Adaptation* covers a wide range of films adapted from other sources The first section presents essays on the hows and whys of adaptation studies and subsequent sections highlight films adapted from a variety of sources including classic and popular literature drama biography and memoir The last section offers a new departure for adaptation studies suggesting that films about history often a separate category of film study can be seen as adaptations of records of the past The anthology concludes with speculations about the future of adaptation studies Several essays provide detailed analyses of films in some cases discussing more than one adaptation of a literary or dramatic source such as *The Manchurian Candidate* *The Quiet American* and *Romeo and Juliet* Other works examined include *Moby Dick* *The House of Mirth* *Dracula* and *Starship Troopers* demonstrating the breadth of material considered for this anthology Although many of the essays appeared in *Literature Film Quarterly* more than half are original contributions Chosen for their readability these essays avoid theoretical jargon as much as possible For this reason alone this collection should be of interest to not only cinema scholars but to anyone interested in films and their source material Ultimately *The Literature Film Reader Issues of Adaptation* provides an excellent overview of this critical aspect of film studies

Western Art, Western History Ron Tyler, 2019-03-07 For nearly half a century celebrated historian Ron Tyler has researched interpreted and exhibited western American art This splendid volume gleaned from Tyler's extensive career of connoisseurship brings together eight of the author's most notable essays reworked especially for this volume Beautifully illustrated with more than 150 images *Western Art Western History* tells the stories of key artists both famous and obscure whose provocative pictures document the people and places of the nineteenth century American West The artists depicted in these pages represent a variety of personalities and artistic styles According to Tyler each of them responded in unique ways to the compelling and exotic drama that unfolded in the West during the nineteenth century an age of exploration surveying pleasure travel and scientific discovery In eloquent and engaging prose Tyler unveils a fascinating cast of characters including the little known German Russian artist Louis Choris who served as a draftsman on the second Russian circumnavigation of the globe the exacting and precise Swiss artist Karl Bodmer who accompanied Prince Maximilian of Wied on his sojourn up the Missouri River and the young American Alfred Jacob Miller whose seemingly frivolous and romantic depictions of western mountain men and American Indians remained largely unknown until the mid twentieth century Other artists showcased in this volume are John James Audubon George Caleb Bingham Alfred E Mathews and finally Frederic Remington who famously sought to capture the last glimmers of the old frontier A common thread throughout *Western Art Western History* is the important role that technology especially the development of lithography played in the dissemination of images As the author emphasizes many works by western artists are valuable not only as illustrations but as scientific documents imbued with cultural meaning By placing works of western art within these broader contexts Tyler enhances our understanding of their history and significance
